

Superlooon

Designed by Jasper Morrison, 2015

48W - 2716lm - 2200-2800K

Adjustable floor lamp emitting direct light. Painted or chrome-plated aluminium body with spinning head, die-cast joints and extruded stem. Silk-screened PMMA diffuser with Edge Lighting technology. Optical switch sensor with Warm Tone dimming on the stem. Plug-in power supply with interchangeable plugs included.

Designed by Jasper Morrison in 2015, Superlooon was born with the emergence of Edge Lighting. Struck by its ability to channel light sideways through a flat disc, the designer imagined a lamp that would mimic the soft, harmonious glow of the full moon. The result was Superlooon, a perfectly circular light source mounted on a gyroscopic axis that allows the disc to rotate smoothly in any direction. Morrison described Superlooon as the answer to the question of what to do with this intriguing technology.

Main specifications

EAN	8059607007037
Mounting	Floor
Environments	Indoor dry location
Light source type	LED
Light sources included	Yes
LED type	LED Module
Power (W)	48
Lumen Output (lm)	2716

Physical

Colour	Chrome
Length (mm)	754
Cord colour	Black
Net weight (kg)	12.15
Package volume (m3)	0.11
IP internal	20

Schematic light drawing

Photometric

Lighting type	Direct
Light distribution	Roto symmetric
CCT (K)	2200-2800
Extreme cut off	No

Electrical

Insulation class	III
Frequency (Hz)	50/60
Main voltage (Vac)	100-240
Power supply	Remote included
Dimmable	Yes
Power supply type	Electronic 48V
Dimming interface	Dimmer Integrated
Plug type	Type A, Type C, Type G
Batteries inside	No

Ecodesign and Energy Labelling

This product contains a light source of energy efficiency class D
