

Tab Floor

Designed by Edward Barber and Jay Osgerby, 2011

9W - 347lm - 2700K - CRI> 90

Floor lamp emitting direct light. Features body in painted die-cast aluminium and multi-LED diffuser in specially designed PMMA to eliminate multi-shadow effect and glare. Adjustable head rotates by $\pm 90^\circ$.

An evolution of the Tab lamp designed by Edward Barber and Jay Osgerby in 2011, Tab Floor is a tribute to essential design and inventive thinking. Driven by a desire to challenge conventions, the designers explored how familiar forms could be made in smarter, more original ways. Its sharp lines and adjustability reinterpret a classic typology, while the simplicity of its form contrasts with its technical precision. Part of the permanent collection at the Art Institute of Chicago and the Indianapolis Museum of Art.
