

Bellhop Glass T

Designed by Edward Barber and Jay Osgerby, 2024

Halogen - 100W

Table lamp emitting diffused light. Features a cylindrical aluminium base with a triplex opaline glass diffuser formed from three simultaneously blown layers of variable thickness. Equipped with an integrated dimmer.

One of Edward Barber and Jay Osgerby's most iconic designs for Flos, Bellhop has evolved from a playful portable lamp into a full family of light. Bellhop Glass reimagines the archetype in triplex opaline glass and metal, materials that give the lamp greater scale, substance and atmosphere. The mouth-blown diffuser allows the entire surface to glow with even warmth. Table, ceiling and suspension versions transform the youthful spirit of the original into a more architectural presence, while evoking the intimacy of candlelight that first inspired the design.
