STUDIOPEPE

Satellite, created by Studiopepe for Baxter, is a contemporary suspension lamp inspired by the poetry of the cosmos. Each element of this collection is unique: the Murano hand-blown glass spheres, characterized by irregular shapes and vibrant colors, turn every chandelier into an unrepeatable work of art. The metal structure delicately supports opaline white shades, evoking the harmony of a string of pearls or the hypnotic movement of planets in orbit. Thanks to the variety of sizes and the possibility to configure the suspension in almost infinite layouts, Satellite becomes an iconic furnishing element, capable of adapting with extreme flexibility to different dining rooms and living spaces.

Model: lamp with LED light source. Assembly required.

Structure: structure in brunished metal.

Lampshades in blown glass available in two colors.
