ОПИСАНИЕ

Love in Bloom is a ваза signed Seletti and designed by Marcantonio. Made of white fiberglass with rear hole to be affixed to the wall. The Love in Bloom heart-shaped ваза is now available in its most generous and large version. The idea behind its design fits perfectly with Seletti's innovative and eccentric style. This porcelain ваза that reproduces the human heart in a realistic way turns out to be a very original object to enrich your home in a unique way. For the incurable romantics, for those who believe that in life you have to have a big heart!
