# WHO WE ARE

We are a design company founded in 2011 with a vision to continuously create design that sparks curiosity.

Our mission is to create timeless pieces on the leading edge of design. Driven by the desire to challenge boundaries between time periods, design directions, cultures and materials, we are dedicated to crafting pieces with character while balancing form, function and comfort. Crafted with honest materials, our pieces are made to use and built to last.

With a sculptural, bold and sophisticated design, we wish to push boundaries and thread new pathways.

FOR LIVING,  
SOCIALIZING  
AND RELAXING

Experience the allure of an outdoor sanctuary inspired by the atmosphere of indoor lounges. Ideally suited for living, socializing and relaxing, the Studio Sofa, Hippo Chair and Hippo Lounge Chair have been specially designed for outdoor areas.

Immerse in the harmonious blend of elegance, durability and functionality.

# THOUGHTFULLY SELECTED MATERIALS

The characteristic wooden profile of the Hippo chairs is crafted from sapele mahogany, ensuring durability and weather resistance. Our outdoor series is available in two variants of OEKO-TEX-certified Savane upholstery from Sunbrella, engineered to combine the highest level of design and performance for outdoor use. Additionally, the Studio Outdoor Sofa is available in LEISURE leather

from renowned Sørensen Leather, an advanced, protected leather suitable for both indoor and outdoor use. LEISURE features a multi-layered micro finish that enhances its resilience against pool and salt water, sunlight, sunscreen, and general wear and tear. Protective covers are available for the Hippo chairs and each module of the Studio sofa to help protect the furniture from wear and tear.

# HIPPO

The Hippo family is defined by soft, playful shapes that draw inspiration from the rounded forms of 70s furniture. The distinctive wooden profile acts as an almost architectural element that starkly contrasts with the rounded, soft back and seat. The series earned its moniker during the design process when the back view revealed similarities to a hippopotamus, giving birth to the name 'Hippo.'

# STUDIO

The original concept for Studio drew inspiration from the sunken lounge sofas of the 1970s. Its aim was to infuse the relaxed, laid-back essence of lounging into the design, while offering a higher degree of modernity and flexibility. Featuring a versatile yet simple system of modules, Studio offers a variety of options to form numerous settings, shapes and styles. It seamlessly blends into all sorts of environments, be it private residences, hospitality settings, offices and commercial spaces.
