Vig is an exquisite outdoor furniture collection meticulously designed to enhance any outdoor space. Combining timeless beauty with exceptional functionality, Vig is the ideal choice for enduring outdoor furniture that will integrate seamlessly in natural landscapes and urban environments alike.

The design emerged from a desire for a sturdy structure with an equally airy and welcoming expression. The seamless union of the legs and seat presents a spacious composition that invites you to indulge in ultimate comfort. With optional armrests boasting a distinctly alluring design, Vig embraces you with open arms, exuding warmth and hospitality. A characterful detail that adds an approachable and friendly feeling to the design.

DESIGNED TO INTEGRATE SEAMLESSLY WITH ITS SURROUNDINGS

Vig offers a range of versatile stackable outdoor furniture, enabling endless possibilities for creating inviting and flexible seating areas. From comfortable dining chairs to inviting lounge chairs, elegant chaise longues, versatile benches, stylish barstools, stackable stools and adaptable tables in various sizes, the collection comprises a comprehensive selection to suit a variety of outdoor spaces.

CRAFTED TO LAST

Made from double powder coated steel for enhanced durability, Vig is built to withstand the rigors of outdoor use while maintaining its pristine appearance. Each piece in the collection has been thoughtfully designed to ensure resilience and longevity, encouraging years of good use in all weather conditions.

A distinctive feature of the Vig collection is the integration of Robinia wood, featured on the collection's tables and available as an optional choice for the seating range. Robinia, otherwise known as Black Locust, is renowned for its exceptional strength, durability, weather resistance and remarkable resistance to decay, requiring minimal maintenance while maintaining its natural beauty.

In total, Vig is a collection of outdoor furniture designed for modern life. Versatile, practical and durable, Vig offers a timeless design in terms of both aesthetics and longevity.

ELEVATES OUTDOOR LIVING

With its timeless design and sturdy construction, Vig is the ultimate addition to any outdoor space, whether it's a cozy balcony, a spacious patio, or a lush garden for cafés, museums, restaurants as well as residential settings. The collection is meticulously crafted to elevate outdoor living experiences, intended to be a focal point of enjoyment for years to come.

ENHANCED COMFORT

Enhancing the convenience and comfort of the Vig collection's range of chairs, barstools, benches, lounge chairs, and chaise longues, Vig Cushions make a soft addition to any outdoor space, professional or residential. Made from durable, water-repellent polyester and filled with plush memory foam, each cushion easily secures with velcro straps and comes in Black or Dark Green to perfectly match the Vig furniture collection.

BIT

Bit Lounge Chair in Black
Bit Side Table in Black

Bit Lounge Chair in Black
Bit Side Table in Black

A VERSATILE DESIGN THAT IS A BIT MORE RESOURCEFUL

Using Normann Copenhagen's signature design aesthetic of minimalistic lines with a playful twist, the Bit collection boasts a straightforward, utilitarian expression that contrasts with a distinctive pixelated surface made up of small bits of 85-95% recycled plastic. At the production facility, plastic waste is shredded, and the granulate is sorted into different colors to match each Bit Stool color variant. Due to different origins of the plastic waste as well as the particular production method, every Bit design is a bit unique.

A GROWING COLLECTION OF ADAPTABLE DESIGNS

The Bit collection began with a series of multi-functional stools and has since expanded, now including barstools, lounge chairs as well as coffee and side tables.

Bit Stool comes in a diversity of colors and three different shapes, each presenting a lightweight, versatile design that, due to their minimalistic design and adaptable nature, possess the ability to take on numerous uses from seating solution to side table to pedestal.

Bit Lounge Chair is a contemporary rendition of the classic lounge chair, offering a comfortable seat for both indoor and outdoor use, designed with the robust, yet playful aesthetic characteristic of the Bit collection.

Bit Barstool, available in heights of 65 cm or 75 cm, offers a captivating twist on conventional bar seating solutions, and is similarly designed for inside and outside spaces alike.

Bit Side Table and Bit Coffee Table combine a minimalistic design idiom with a timeless color composition, allowing them to effortlessly complement existing interior or exterior designs.

Encompassing a wide range of design pieces, the versatile and adaptable Bit collection is designed to seamlessly integrate with a diversity of environments from bustling cafés and elegant hotel lobbies to homey living rooms and cozy balconies in both private and commercial settings.

BLURRING THE LINES BETWEEN INDOOR AND OUTDOOR LIVING

Designed to accommodate the diversity of needs of modern life, the Bit collection transcends traditional notions of indoor living, inviting the outdoors in and vice versa. The collection encompasses stools, lounge chairs, barstools, coffee tables and side tables crafted to withstand temperatures ranging from -10°C to $+50^{\circ}\text{C}$, amplifying the options for creating unique indoor and outdoor settings alike.

Allez Chair and Allez Table in various combinations

Allez Chair in Black with molded wicker seat
Allez Table with four legs and stainless steel tabletop

ALLEZ

From small balconies to grand patios and cozy garden nooks, the Allez Chair and Table duo are the perfect companions for outdoor environments.

Inspired by French bistro culture, Allez gives a contemporary look and feel to the traditional café chair's soft idiom and constructive strength in terms of design, functionality and sustainability. The result is a flexible design that still nods to a bygone era but has now been adapted to suit even more environments and user scenarios.

Allez Chair with Molded Wicker Seat in Black
Allez Table 3L in Stainless Steel

Allez Table 4L H75 x Ø60 cm in Marble Coffee
Allez Chair in Warm Grey

Based on an innovative component built construction, the Allez Chair can be customized to match any desired expression or complement any setting. The Allez components are available in several variants, allowing users to put together a design to suit their personal style and needs.

With a variety of seats to choose between, Allez can obtain a diversity of different expressions. From a French bistro look evoked by an enduring molded polypropylene wicker seat, to a clean, minimalistic appearance induced by a monotone polyamide seat featuring a discreet hole leading rainwater away, Allez offers the possibility to create personalized spaces for outdoor living. For increased comfort, the chair is available to order with color-coordinated seat upholstery in OEKO-TEX-certified outdoor upholstery with the ability to withstand the wear and tear of outdoor use.

Allez Chair is available in five timeless tones, each reflecting the stark and beautiful Nordic nature. A balanced and neutral color palette of park green, grey and warm grey, as well as black and white, allows the design to humbly fit into larger contexts and outdoor environments. The color scale supports the desire for a design that will stay relevant for many generations to come.

A trusted companion to its namesake chair, the Allez Table is characterized by sleek, elegant lines from all vantage points and a cylindrical cast iron 3 or 4-legged pedestal base discretely shaped to mimic the curvature of the Allez Chair's legs. Adjustable feet have been incorporated in the design, making it possible to stabilize it on uneven surfaces.

The Allez Table offers flexibility with the choice of either circular or square tabletops made from a broad assortment of materials. Inspired by traditional café tables, Allez includes two tabletop options that are ideal for outdoor use: Timeless marble or lightweight, 4mm thin solid stainless steel.

The many possible combinations allow for putting together a customized Allez ensemble that will constitute the setting for many memorable outdoor moments.

Ex Bench

Ex Bench

EX

The Ex Table and Bench blend functionality and durability with a contemporary yet timeless silhouette for lasting appeal. Crafted from extruded aluminum, the series highlights the material's lightweight strength, natural resistance to corrosion, and ability to endure outdoor conditions. The design features aluminum profiles with slight gaps for efficient rainwater drainage, supported by subtly angled legs that balance form and function.
