

Disegnata da Stefano Cavazzana, questa cucina è un progetto nato all'insegna dell'estrema purezza formale con lo scopo di interpretare la cucina in sintonia con il vivere quotidiano.

Caratterizzata dalla maniglia in alluminio che traccia un segno verticale nell'anta di forte spessore, tutto sottolinea la gran cura ed attenzione posta nel risolvere in modo razionale e inedito ogni più piccolo dettaglio, dal ricercato disegno del top con la possibilità di inserire a filo degli elettrodomestici, dai contenitori credenza pensati per contenere e dividere lo spazio, dalle ante in vetro con nuove finiture e disegno. Raffinata, tecnologica ed emozionale, in questa cucina ogni elemento rivela contenuti di originalità ed innovazione del progetto per un ambiente dove cucinare è solo una delle possibili attività.
