Bottega d'Arte Città di Faenza

ISO Specs

A salute to Italian ceramic history

The Bottega d'Arte collection by Iris Ceramica draws upon the rich history of Italian ceramic culture. The collection is inspired by the renowned ceramic centre of Faenza and the Italian landscape itself, celebrating the sophistication of the urban and the simplicity of the rural traditions in Italian ceramic manufacturing history. It comprises two distinct series: Terre and Città di Faenza, each offering a distinct aesthetic and range of options.

BOTTEGA D'ARTE TERRE

Tiles:
5BTT104
5BTT127

Embracing the warmth of the Earth

The Terre series, reminiscent of the sun-baked earth of the Italian countryside, features a warm and inviting palette of 33 colours. These colours are available in three finishes - natural, gloss, and gloss glazed - providing options to suit various design preferences. The series is offered in two sizes: the classic 150x150mm size, evoking the charm of traditional terracotta tiles, and a 75x150mm strip tile format, allowing for greater versatility in design applications. Two simple decorative pieces are available in 12 of the colours from the palette allowing designers to disrupt uniformity.

BOTTEGA D'ARTE CITTÀ DI FAENZA

Wall:
5BTT138
5BTT138D117

Inspired by glazed ceramics

The Città di Faenza series draws inspiration from the historic city's tradition of glazed ceramics, which has been significant enough to coin a toponym, faience. It offers a curated selection of 6 colours, each featuring a distinctive gloss crackle finish that creates an artisanal and vintage aesthetic. Like the Terre series, Città di Faenza is available in both 150x150mm and 75x150mm sizes, providing flexibility for different design schemes. The series also includes complex decorative tiles available with gold accents, that bring light into darker spaces. The Città di Faenza series is a refined and sophisticated range which explores the tiles of previous eras.

SOLUS

About Solus Plus

Solus Plus is our new mark of assurance for responsibly sourced products. Built on the rigorous standards of BES 6001, it highlights collections produced by factories that demonstrate industry-leading sustainability across their entire supply chain, from raw material extraction to final delivery.

When specified through Solus, these products can contribute valuable credits toward BREEAM, LEED and WELL certification, helping you meet your environmental targets without compromising on quality or design. Look for the Solus Plus symbol to specify with confidence.
