VG

VG lascia il segno a Maison & Objet grazie ad uno stand esclusivo, caratterizzato da innumerevoli novità di prodotto. Collezioni capaci di regalare emozioni, calore e fantasia.

Negli arredi i fiori divengono l'elemento decorativo caratterizzante della nuova collezione Andy, un omaggio al "Flower Power", ai fiori come icone pop di Andy Warhol.

La linea Milano invece, eccentrica nelle forme e provocatoria nei materiali, propone una seduta ed un tavolino dal carattere indiscutibilmente deciso. Il legame fra il mondo del design e quello della moda è sempre stato forte, fortissimo, mai come oggi. Gli elementi decorativi sono da sempre stati al centro dell'attenzione di VG, che quest'anno con la collezione Coco, dedica una collezione di ceramiche alla maestria di Coco Chanel, protagonista della storia della moda moderna, colei che ha creato lo stile nella semplicità e nell'eleganza.

Con la collezione di ceramiche Andy VG presenta una collezione di rivisitazioni in chiave "pop" di sculture d'arte classica. L'opera di ispirazione viene destrutturata, solo alcuni dettagli vengono estrapolati e messi in evidenza, divenendo i protagonisti del nuovo oggetto. Un progetto ambizioso, che trae spunto dalle più alte rappresentazioni dell'arte italiana.

Grande attenzione verso l'artigianalità ed il "Made in Italy" viene sottolineata nella scelta del vetro di Murano con cui molti nuovi prodotti sono realizzati. La più antica lavorazione conosciuta nel mondo e rappresenta una delle poche forme di artigianato artistico legata al mondo dell'arte e del design ancora oggi. La lavorazione è affidata alla mani esperte di mastri soffiatori che, custodendone il segreto, creano oggetti unici ed inimitabili atto a sottolineare l'importanza del "Made in Italy".

VG leaves its mark at Maison & Objet thanks to an exclusive stand, characterized by several new products and collections that give emotions, warmth and imagination.

Flowers become the main decorative element of the new Andy collection, a tribute to the "Flower Power" and flowers as Andy Warhol's pop icons.

The Milano collection, with eccentric shapes and provocative materials, proposes a seat and a small table marked by a strong design. The connection between design and fashion has always been very strong as never before. Decorative elements have always been the main focus for VG, that this year dedicates a new collection of ceramic ware called Coco, in honour of the great Coco Chanel, protagonist of the history of modern fashion with her simplicity and elegance.

Further, with the collection of ceramic ware Andy, VG presents a reinterpretation "pop" of classical art sculptures. The work of inspiration is unstructured, only few details are extracted and highlighted, becoming the protagonists of the new object. An ambitious project, inspired by the highest Italian art representations.

Deep focus on craftsmanship and Made in Italy are emphasized by Murano glass that characterizes several new products. The oldest hand-made ability worldwide known is nowadays one of the few forms of crafts related to the world of art and design today. The work is entrusted to the expert hands of craftsmen glassblowers who keep their secret and create unique and inimitable objects doomed to emphasize the importance of "Made in Italy".

Il divano "New York" di VGnewtrend si trasforma, grazie ai tessuti della prestigiosa maison Rubelli, in una tela da pittore. L'effetto sia visivo che materiale di questo rivestimento in lino grezzo stampato è proprio quello delle pennellate di un'artista su una tela. Metropolitan, dall'eleganza minimal e contemporanea, il divano penisola "New York" è proposto con una serie di cuscini in coccodrillo e in texture militari contornate da rifiniture dai colori accesi che sottolineano la forza di insieme di questo progetto. Uno stile ricercato per chi fa della propria casa una base e una meta.

The sofa "New York" by VGnewtrend becomes a painter canvas, thanks to the prestigious fabric by Rubelli. The visual and tactile effect of the printed raw linen is just the same as the brush strokes of an artist on a canvas. Metropolitan and featured by a minimal contemporary elegance, the peninsula sofa is available with a range of pillows in crocodile and camouflage textures trimmed by bright colours, that emphasize the strength of this project. A refined style for those who feel home as their base and destination.

La preziosità del vetro Muranese. Un vaso dedicato alla celebrazione dei grandi maestri vetrai veneziani degli anni '30-'40. Il vetro di Murano è la più antica lavorazione conosciuta nel mondo e rappresenta una delle poche forme di artigianato artistico legata al mondo dell'arte e del design ancora oggi. La lavorazione è affidata alla mani esperte di mastri soffiatori che, custodendone il segreto, creano oggetti unici ed inimitabili atto a sottolineare l'importanza del "Made in Italy". La collezione Correr gira attorno al rostro, elemento decorativo già nell'epoca romana.

The beauty of Muranese glass. A vase designed to celebrate the mastery of the great Venetian glass-makers of the 1930s and 1940s. Murano glassmaking is the most ancient skill of its kind known in the world, and is still one the few forms of artisan production closely linked to the world of art and design. The process relies on the skills of master glass-blowers, who, using their secret methods, create some unique and incomparable objects which exemplify the special quality of Italian craftsmanship. The Correr collection centres on the motif of the rostrum, or ship's prow, a decorative element used during the Roman period.

NEFERTARI

Guardando alla folgorante bellezza della famosa sposa reale, probabilmente la più potente e celebre regina d'Egitto di tutti i tempi, VG ha ideato questa linea di portacandele per impreziosire tavoli e consolle. Realizzati artigianalmente in vetro e ricoperti di gocce di cristallo che si avviluppano sull'intera superficie come una preziosa catena, riflettendo lo scintillio della fiamma e conferendo un tocco di sontuoso fascino ideale sia per valorizzare le ambientazioni più lineari, sia per enfatizzare lo charme degli spazi più sontuosi.

In homage to the dazzling beauty of this famous royal wife, probably the most powerful and celebrated Egyptian queen of all time, VG has designed this line of candle-holders to embellish your table or sideboard. The candleholders are craftsman-made in glass and covered in crystal droplets which surround the whole surface like a precious necklace, reflecting the flickering of the flame and giving the object a magical fascination. The candleholder is perfect for either a more linear space, or to enhance the beauty of a richly decorated room.

ITALIAN CRAFTSMANSHIP

A Bassano si produce ceramica da trecento anni. Infatti dal XVII secolo quest'arte si è sviluppata nel Veneto grazie alla presenza nel sottosuolo di argilla plastica, saldame e caolino. Inoltre il fiume Brenta permetteva il trasporto dei prodotti finiti e l'azionamento dei mulini che miscelavano gli impasti e macinavano i ciottoli del fiume. Suolo e sottosuolo hanno posto le basi per la nascita di una grande tradizione artigianale che mette insieme natura, tradizione e cultura. Una fantastica storia nella storia, da ricordare ogni volta che tocchiamo questi piccoli capolavori.

In Bassano ceramics have been produced for 300 years. In fact, from the seventeenth century this art has been developed in Veneto thanks to the presence of plastic clay, solder and kaolin in the subsoil. Also, the river Brenta allowed the transport of finished products and the activation of mills that blended mixtures and grind the pebbles of the river. Soil and subsoil have prepared the ground for the birth of a great artisanal tradition that brings together nature, tradition and culture. A fantastic story within the story to remember every time we touch these little masterpieces.

L'arte classica in chiave pop
VG dedica un omaggio all'arte classica, riproponendo il volto di donna della celebre statua "La Psiche di Capua", opera ellenistica del I secolo a.C., come protagonista del grande vaso rettangolare in ceramica di Bassano. VG propone il vaso in due varianti: la prima con la finitura in bianco opaco con il viso in oro lucido, la seconda completamente bianco opaco.

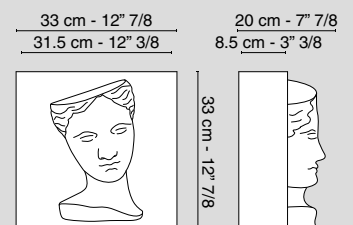

Classic art in a pop mode
VG pays homage to classical art, using the face of the woman in the famous "Psyche of Capua", a Hellenistic statue dating from the 1st century B.C., as the image on a rectangular vase in Bassano ceramic. VG offers the vase with a choice of two possibilities: the first with a matt white finish and the face highlighted in gold; the second in matt white throughout.

Collezione di Ceramiche "Andy" VG presenta una collezione di rivisitazioni in chiave "pop" di sculture d'arte classica. L'opera di ispirazione viene destrutturata, solo alcuni dettagli vengono estrapolati e messi in evidenza, divenendo i protagonisti del nuovo oggetto. Un progetto ambizioso, che trae spunto dalle più alte rappresentazioni dell'arte italiana.

The "Andy" ceramic collection VG presents a collection of classic sculptures which revisits the techniques of pop art. The original work is taken apart; a few details are then removed and highlighted, becoming the main features of the new object. This is an ambitious project, taking its inspiration from some of the most famous images in Italian art.
