## LIGHTING COLLECTION

La volontà di VG è quella di partecipare alla creazione di luoghi fortemente caratterizzati, ambienti in cui rifugiarsi per evadere dalla realtà esaltando l'espressione della propria personalità, spazi in cui tornare a respirare e sognare.

Riportare la natura in casa, darle spazio in giardino, costruire una casa colorata e decorata, accostare oggetti luminosi a luci sfolgoranti dal vago sapore orientale, recuperare il contatto con l'autenticità creativa dell'oggetto nato dal pensiero e dalla cultura tipicamente italiana, un'unica commistione di complementi per arredare spazi con un'identità precisa, unica nel suo genere, non moderna, non classica ma in grado di dialogare con ogni stile: questo è l'obiettivo del concept progettuale di VG.

*VG participates in creating very distinct environments, spaces in which you can escape from reality; to seek refuge whilst expressing your personality; spaces in which you can breathe and dream.*

*Bringing nature into your home, giving it space in the garden, building a colourful and decorated house, placing brilliant objects in bright lights with a vaguely Eastern flavour, regaining contact with the authenticity of an object created from a typically Italian concept and culture, a unique mix of furnishings to decorate spaces with a distinct identity, one of a kind, not modern, not classic, yet able to communicate with any style: this is the goal of VG design concept.*
