Harmony

Luce e Silenzio, insieme
per l'armonia

Light and Silence, together for harmony

EGOLUCE e DPS Solving uniscono le loro eccellenze per offrire soluzioni integrate di illuminazione e fonoassorbimento. La collaborazione tra design e tecnologia permette di creare ambienti confortevoli, funzionali ed esteticamente coerenti. Un unico partner per due specializzazioni significa risultati superiori, rapidità nella progettazione e armonia tra luce e suono in ogni spazio.

EGOLUCE et DPS Solving unissent leurs excellences pour offrir des solutions intégrées d'éclairage et d'insonorisation. La collaboration entre design et technologie permet de créer des environnements confortables, fonctionnels et esthétiquement cohérents. Un seul partenaire pour deux spécialisations signifie des résultats supérieurs, une conception rapide et une harmonie entre la lumière et le son dans chaque espace.

EGOLUCE and DPS Solving combine their expertise to offer integrated lighting and sound absorption solutions. The collaboration between design and technology allows for the creation of comfortable, functional and aesthetically coherent environments. A single partner for two specialisations means superior results, speed in design and harmony between light and sound in every space.

EGOLUCE und DPSSolving vereinen ihre Kompetenzen, um integrierte Lösungen für Beleuchtung und Schallabsorption anzubieten. Die Zusammenarbeit zwischen Design und Technologie ermöglicht es, komfortable, funktionale und ästhetisch stimmige Umgebungen zu schaffen. Ein einziger Partner für zwei Spezialgebiete bedeutet überlegene Ergebnisse, schnelle Planung und Harmonie zwischen Licht und Klang in jedem Raum.

Synergy

Due storie italiane, un'unica visione di benessere

Two Italian stories, one vision of wellbeing

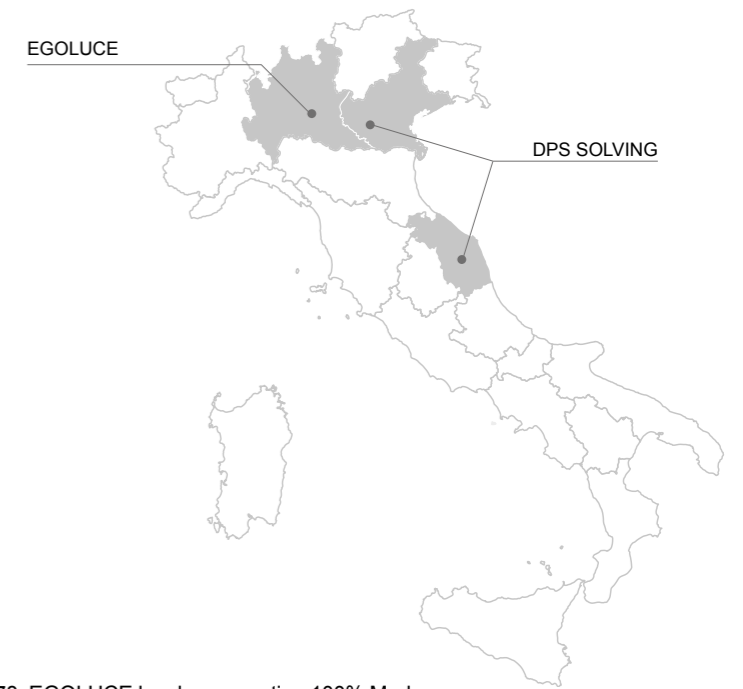

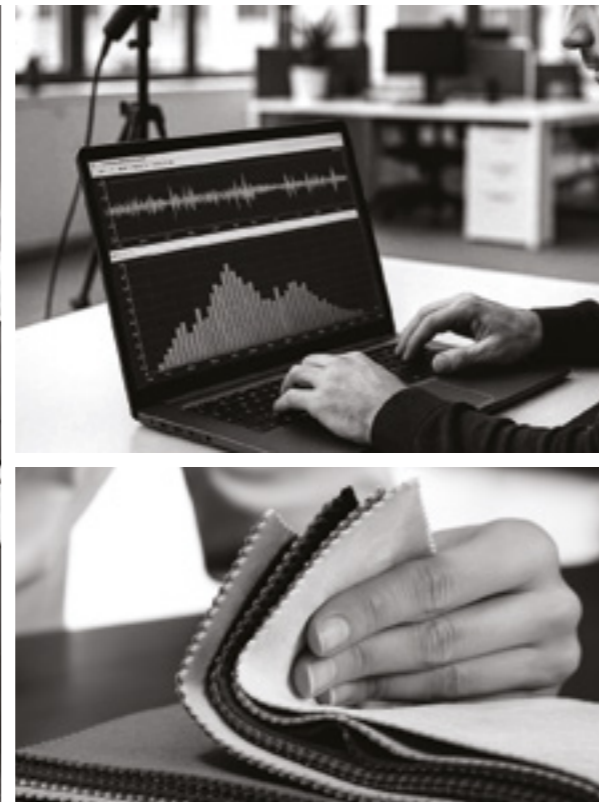

La realtà di DPS Solving è costituita da un efficiente polo logistico a Cologna Veneta, che mette a disposizione oltre 2.000 mq per soddisfare le richieste di mercato provenienti dall'Italia e dall'Europa, e dalla struttura di Cerreto d'Esi, un innovativo sito produttivo di 2.700 mq, progettato a basso impatto acustico e ambientale, dove tecnologia e sostenibilità si integrano per garantire prodotti di alta qualità.

La réalité de DPS Solving est constituée d'un pôle logistique efficace à Cologna Veneta, qui met à disposition plus de 2 000 m² pour répondre aux demandes du marché italien et européen, et de la structure de Cerreto d'Esi, un site de production innovant de 2 700 m², conçu pour avoir un faible impact acoustique et environnemental, où technologie et durabilité s'intègrent pour garantir des produits de haute qualité.

DPS Solving consists of an efficient logistics hub in Cologna Veneta, which offers over 2,000 square metres to meet market demands from Italy and Europe, and the Cerreto d'Esi facility, an innovative 2,700 square metre production site, designed to have low acoustic and environmental impact, where technology and sustainability are integrated to guarantee high-quality products.

Die Realität von DPS Solving besteht aus einem effizienten Logistikzentrum in Cologna Veneta, das über 2.000 m² zur Verfügung stellt, um die Marktnachfrage aus Italien und Europa zu befriedigen, und aus der Anlage in Cerreto d'Esi, einer innovativen Produktionsstätte mit einer Fläche von 2.700 m², die auf geringe Lärm- und Umweltbelastung ausgelegt ist und in der Technologie und Nachhaltigkeit Hand in Hand gehen, um Produkte von hoher Qualität zu gewährleisten.

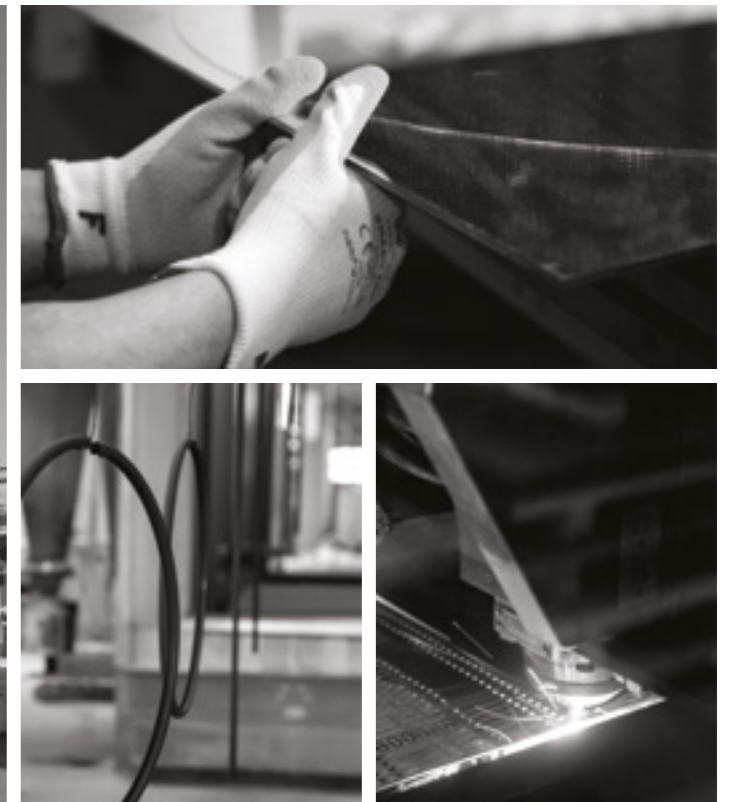

Dal 1978 EGOLUCE crea prodotti 100% Made in Italy, unendo creatività, artigianalità e tecnologia d'eccellenza. Ogni dettaglio esprime lo stile italiano, riconosciuto e apprezzato nel mondo, trasformando gli spazi in ambienti eleganti, funzionali e ricchi di personalità. Grazie alla collaborazione con aziende e artigiani italiani, EGOLUCE offre soluzioni innovative, performanti e capaci di emozionare.

Depuis 1978, EGOLUCE crée des produits 100 % Made in Italy, alliant créativité, savoir-faire artisanal et technologie d'excellence. Chaque détail exprime le style italien, reconnu et apprécié dans le monde entier, transformant les espaces en environnements élégants, fonctionnels et riches en personnalité. Grâce à sa collaboration avec des entreprises et des artisans italiens, EGOLUCE propose des solutions innovantes, performantes et capables d'émerveiller.

Since 1978, EGOLUCE has been creating 100% Made in Italy products, combining creativity, craftsmanship and technological excellence. Every detail expresses Italian style, recognized and appreciated worldwide, transforming spaces into elegant, functional environments full of personality. Thanks to its collaboration with Italian companies and artisans, EGOLUCE offers innovative, high-performance solutions capable of exciting.

Seit 1978 entwickelt EGOLUCE Produkte, die zu 100 % in Italien hergestellt werden und Kreativität, Handwerkskunst und Spitzentechnologie vereinen. Jedes Detail spiegelt den weltweit anerkannten und geschätzten italienischen Stil wider und verwandelt Räume in elegante, funktionale Umgebungen voller Persönlichkeit. Dank der Zusammenarbeit mit italienischen Unternehmen und Handwerkern bietet EGOLUCE innovative, leistungsstarke und emotionale Lösungen.

Blend

L'unione che semplifica i tuoi progetti e valorizza il risultato finale

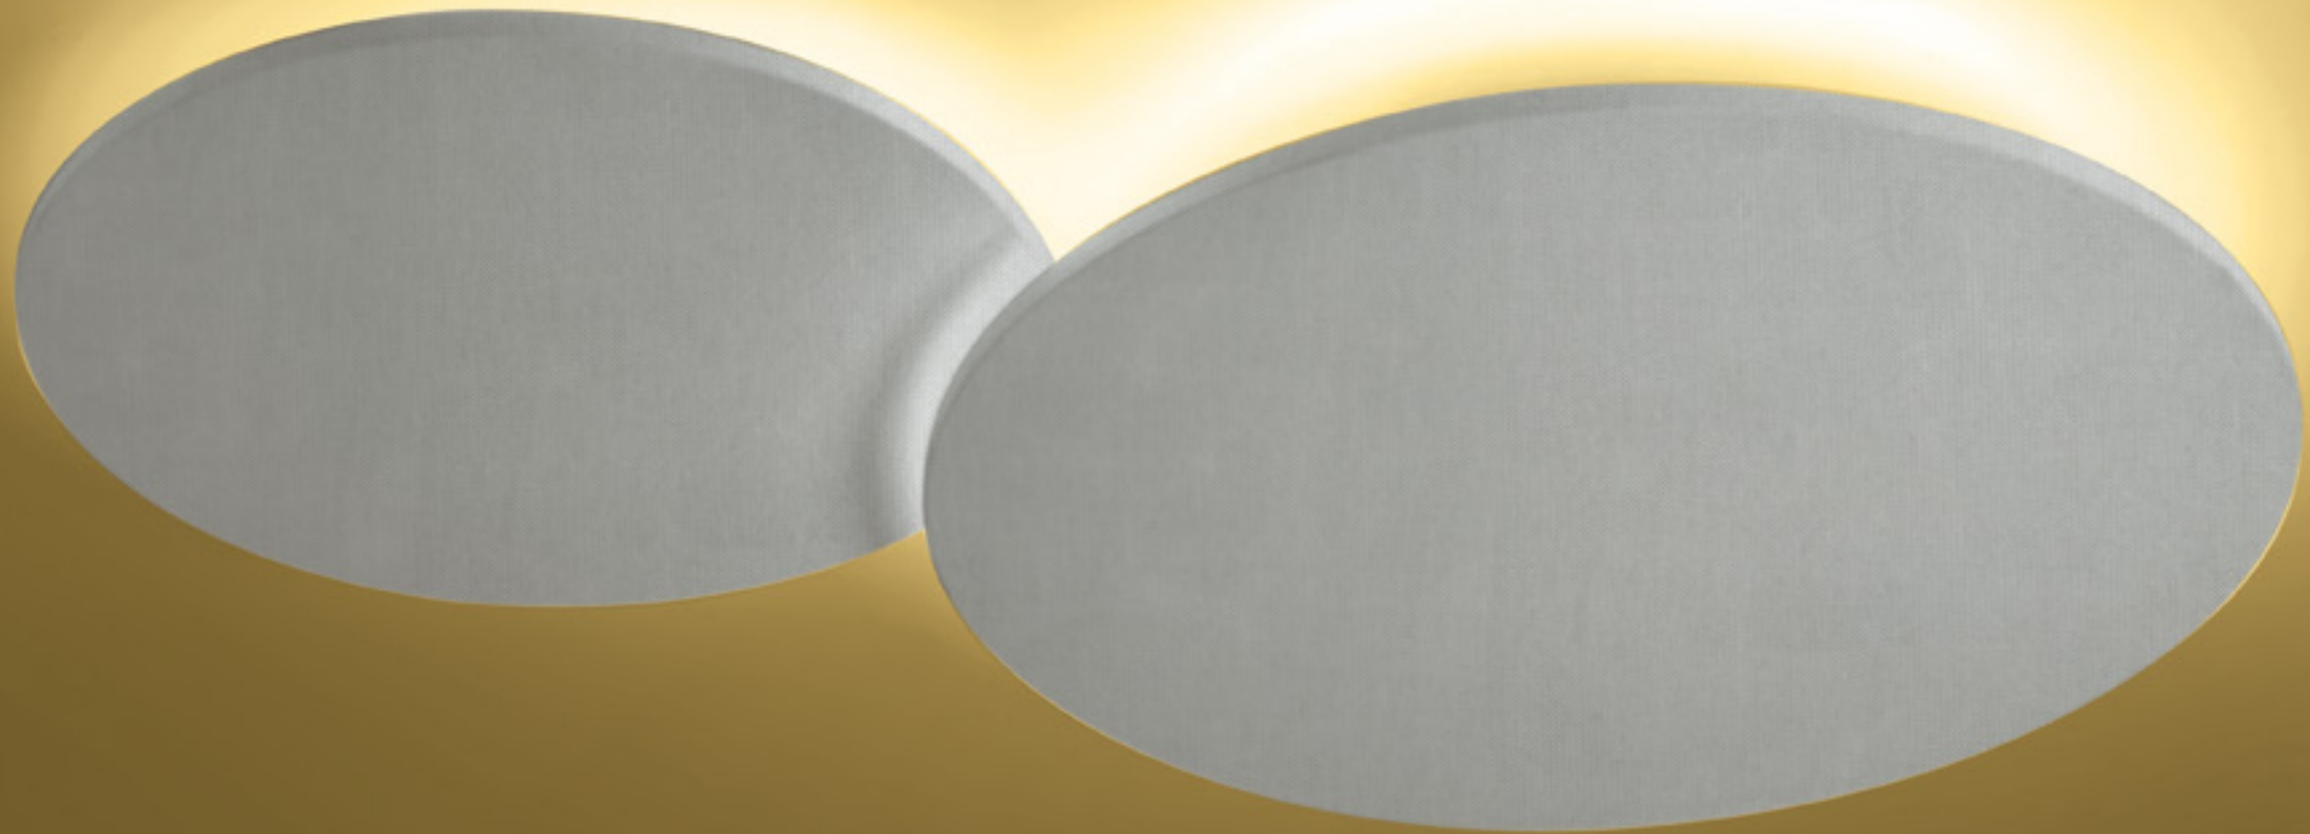

The union that simplifies your projects and enhances the final result

Illuminazione e comfort acustico si uniscono in un'unica visione progettuale. EGOLUCE e DPS Solving offrono soluzioni di Acoustic Lighting che semplificano il lavoro del progettista, garantendo coerenza estetica, efficienza e benessere ambientale. Un solo interlocutore, dal concept alla realizzazione, per risultati armoniosi e performanti.

Lighting and acoustic comfort come together in a single design vision. EGOLUCE and DPS Solving offer Acoustic Lighting solutions that simplify the designer's work, ensuring aesthetic consistency, efficiency and environmental well-being. A single point of contact, from concept to implementation, for harmonious and high-performance results.

Éclairage et confort acoustique s'unissent dans une vision conceptuelle unique. EGOLUCE et DPS Solving proposent des solutions d'éclairage acoustique qui simplifient le travail du concepteur, garantissant cohérence esthétique, efficacité et bien-être environnemental. Un seul interlocuteur, de la conception à la réalisation, pour des résultats harmonieux et performants.

Beleuchtung und akustischer Komfort vereinen sich in einer einzigen Designvision. EGOLUCE und DPS Solving bieten Lösungen für akustische Beleuchtung, die die Arbeit des Designers vereinfachen und ästhetische Kohärenz, Effizienz und Wohlbefinden in der Umgebung gewährleisten. Ein einziger Ansprechpartner vom Konzept bis zur Umsetzung für harmonische und leistungsstarke Ergebnisse.

Doppia funzione un solo concept
Una soluzione che integra comfort acustico e illuminazione riducendo tempi e complessità progettuali.

Dual function, single concept
A solution that integrates acoustic comfort and lighting, reducing time and design complexity.

Design armonico e coordinato
Forme, materiali e corpi illuminanti creano un'estetica coerente e raffinata.

Harmonious and coordinated design
Shapes, materials and lighting fixtures create a consistent and refined aesthetic.

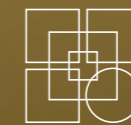

Comfort olistico unificato
Un approccio human-centric che riduce affaticamento visivo e acustico.

Unified holistic comfort
A human-centric approach that reduces visual and acoustic fatigue.

Installazione rapida e semplificata
Un unico prodotto riduce i tempi di montaggio e logistica anche in ambienti complessi.

Quick and simplified installation
A single product reduces assembly and logistics times, even in complex environments.

Ottimizzazione di spazio
Due funzioni in un solo corpo liberano spazio e mantengono ordine visivo.

Space optimization
Two functions in a single unit free up space and maintain visual order.

Soluzione su misura per ogni ambiente
Ampia varietà di forme, dimensioni e materiali per adattarsi a ogni contesto.

Tailor-made solutions for every environment
A wide variety of shapes, sizes and materials to suit every context.

Creativity

Creatività senza limiti per soluzioni acustiche e luminose su misura

Unlimited creativity for tailor-made acoustic and lighting solutions

Ogni progetto ha una propria identità. Con EGOLUCE e DPS Solving puoi personalizzare forme, colori, finiture e persino stampare grafiche sui pannelli acustici. Combina design e tecnologia per creare atmosfere uniche, calibrando luce e suono secondo le tue esigenze. La tua visione, perfettamente illuminata e perfettamente silenziosa.

Chaque projet a sa propre identité. Avec EGOLUCE et DPS Solving, vous pouvez personnaliser les formes, les couleurs, les finitions et même imprimer des graphiques sur les panneaux acoustiques. Combinez design et technologie pour créer des ambiances uniques, en calibrant la lumière et le son selon vos besoins. Votre vision, parfaitement éclairée et parfaitement silencieuse.

Every project has its own identity. With EGOLUCE and DPS Solving, you can customize shapes, colors, finishes and even print graphics on acoustic panels. Combine design and technology to create unique atmospheres, calibrating light and sound according to your needs. Your vision, perfectly illuminated and perfectly silent.

Jedes Projekt hat seine eigene Identität. Mit EGOLUCE und DPS Solving können Sie Formen, Farben und Oberflächen individuell gestalten und sogar Grafiken auf die Akustikplatten drucken. Kombinieren Sie Design und Technologie, um einzigartige Atmosphären zu schaffen, indem Sie Licht und Klang ganz nach Ihren Bedürfnissen abstimmen. Ihre Vision, perfekt beleuchtet und vollkommen geräuschlos.

360°

Un partner a 360° che affianca il progettista in ogni fase del progetto

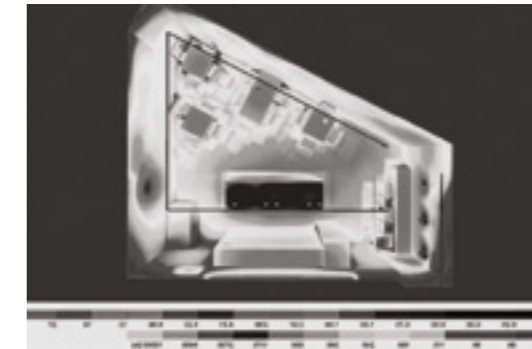

Il tecnico della DPS Solving Acoustics Division esegue un test acustico secondo la norma UNI EN ISO 3382-2:2008, misurando i tempi di riverbero dell'ambiente. In alternativa, il progetto nasce dall'analisi di una planimetria 2D del locale. Seguono simulazioni 2D e 3D per visualizzare la soluzione Artè, poi i pannelli vengono installati.

The DPS Solving Acoustics Division technician performs an acoustic test according to the UNI EN ISO 3382-2:2008, measuring the reverberation times of the environment. Alternatively, the project begins with an analysis of a 2D floor plan of the room. This is followed by 2D and 3D simulations to visualize the Artè solution, and then the panels are installed.

Le technicien de la division DPS Solving Acoustics Division réalise un test acoustique selon la norme UNI EN ISO 3382-2:2008, en mesurant les temps de réverbération de l'environnement. Alternativement, le projet est élaboré à partir de l'analyse d'un plan 2D du local. Des simulations 2D et 3D suivent pour visualiser la solution Artè, puis les panneaux sont installés.

Der Techniker der DPS Solving Acoustics Division führt einen Akustiktest gemäß der Norm UNI EN ISO 3382-2:2008 durch und misst dabei die Nachhallzeiten des Raums. Alternativ basiert das Projekt auf der Analyse eines 2D-Grundrisses des Raums. Es folgen 2D- und 3D-Simulationen zur Visualisierung der Artè-Lösung, anschließend werden die Paneele installiert.

A 360° partner that supports the designer at every stage of the project

EGOLUCE è un'azienda leader nell'illuminazione, specializzata in progetti illuminotecnici professionali. Attraverso software dedicati e competenze tecniche, realizza soluzioni su misura che uniscono efficienza, qualità e design, valorizzando ogni ambiente con la luce più adatta e nel pieno rispetto delle normative.

EGOLUCE is a leading lighting company specializing in professional lighting projects. Using dedicated software and technical expertise, it creates tailor-made solutions that combine efficiency, quality and design, enhancing every space with the most suitable lighting and in full compliance with regulations.

EGOLUCE est une entreprise leader dans le domaine de l'éclairage, spécialisée dans les projets d'éclairage professionnels. Grâce à des logiciels dédiés et à ses compétences techniques, elle réalise des solutions sur mesure qui allient efficacité, qualité et design, mettant en valeur chaque espace avec l'éclairage le plus adapté et dans le respect total des normes.

EGOLUCE ist ein führendes Unternehmen im Bereich Beleuchtung, das sich auf professionelle Lichtprojekte spezialisiert hat. Mit Hilfe spezieller Software und technischem Know-how entwickelt es maßgeschneiderte Lösungen, die Effizienz, Qualität und Design vereinen und jeden Raum mit dem passenden Licht aufwerten, wobei alle Vorschriften eingehalten werden.

Sustainability

Sostenibilità e innovazione:
progettare con
responsabilità e visione

**Sustainability and innovation: designing
with responsibility and vision**

SOSTENIBILITÀ EGOLUCE

- **Efficienza energetica**
Tecnologia LED di ultima generazione, qualsiasi variante di dimmerabilità disponibile.
- **Longevità e durabilità**
Prodotti progettati e costruiti per garantire la massima durata.
- **Riparabilità**
Componenti sostituibili per estendere la vita utile del prodotto.
- **Materiali riciclabili**
Alluminio e acciaio INOX AISI 316 L riciclabili all'infinito senza perdere le proprietà originali.
- **Filiera corta**
Produzione entro 100 km per minimizzare l'impatto ambientale.
- **Progettazione e consulenza efficace**
Soluzioni su misura per ottimizzare efficienza e comfort luminoso.
- **Imballaggi sostenibili e minimizzati**
90% di materiali riciclabili.

SOSTENIBILITÀ DPS SOLVING

- **Basso impatto ambientale**
Sito produttivo ottimizzato per ridurre consumi energetici e rumore.
- **Materiali riciclati**
Pannelli con fibra di poliestere da bottiglie, riducendo sprechi.
- **Processi efficienti**
Produzione e logistica ottimizzate per ridurre consumi e scarti.
- **Analisi e simulazioni**
Strumenti 2D/3D per interventi mirati ed efficienti.
- **Durabilità eccezionale**
Prodotti eterni, che mantengono le stesse prestazioni nel tempo.
- **Manutenzione**
Richiede esclusivamente la pulizia, senza bisogno di interventi tecnici.
- **Materiali certificati**
Tessuti Trevira CS e componenti durevoli per garantire sicurezza e performance. I pannelli fonoassorbenti sono in classe di reazione al fuoco B-s2,d0.

EGOLUCE e DPS Solving condividono la stessa attenzione per l'ambiente. Il risultato è una gamma di prodotti eco-consapevoli, performanti e di qualità estetica elevata. Progettare il futuro significa scegliere in modo sostenibile.

EGOLUCE et DPS Solving partagent le même attention pour l'environnement. Le résultat est une gamme de produits eco-responsable, performants et d'une grande qualité esthétique. Concevoir l'avenir, c'est faire des choix durables.

EGOLUCE and DPS Solving share the same concern for the environment. The result is a range of eco-conscious, high-performance products with outstanding aesthetic qualities. Designing the future means making sustainable choices.

EGOLUCE und DPS Solving teilen das gleiche Interesse für die Umwelt. Das Ergebnis ist eine Reihe umweltbewusster, leistungsstarker und ästhetisch hochwertiger Produkte. Die Zukunft zu gestalten bedeutet, sich für Nachhaltigkeit zu entscheiden.

EGOLUCE SUSTAINABILITY

- **Energy efficiency**
Latest generation LED technology, all dimmability options available.
- **Longevity and durability**
Products designed and built to ensure maximum durability.
- **Repairability**
Replaceable components to extend the product's useful life.
- **Recyclable materials**
Aluminium and AISI 316 L stainless steel, infinitely recyclable without losing their original properties.
- **Short supply chain**
Production within 100 km to minimize environmental impact.
- **Effective design and consulting**
Tailor-made solutions to optimise efficiency and lighting comfort.
- **Sustainable and minimized packaging**
90% recyclable materials.

DPS SOLVING SUSTAINABILITY

- **Low environmental impact**
Production site optimised to reduce energy consumption and noise.
- **Recycled materials**
Panels made from polyester fibre from bottles, reducing waste.
- **Efficient processes**
Production and logistics optimised to reduce consumption and waste.
- **Analysis and simulations**
2D/3D tools for targeted and efficient interventions.
- **Exceptional durability**
Timeless products that maintain the same performance over time.
- **Maintenance**
Requires only cleaning, with no technical intervention necessary.
- **Certified materials**
Trevira CS fabrics and durable components to ensure safety and performance. Sound-absorbing panels with B-s2,d0 fire reaction classification.

My Artè

Liberi di creare, su misura
di qualsiasi forma e design

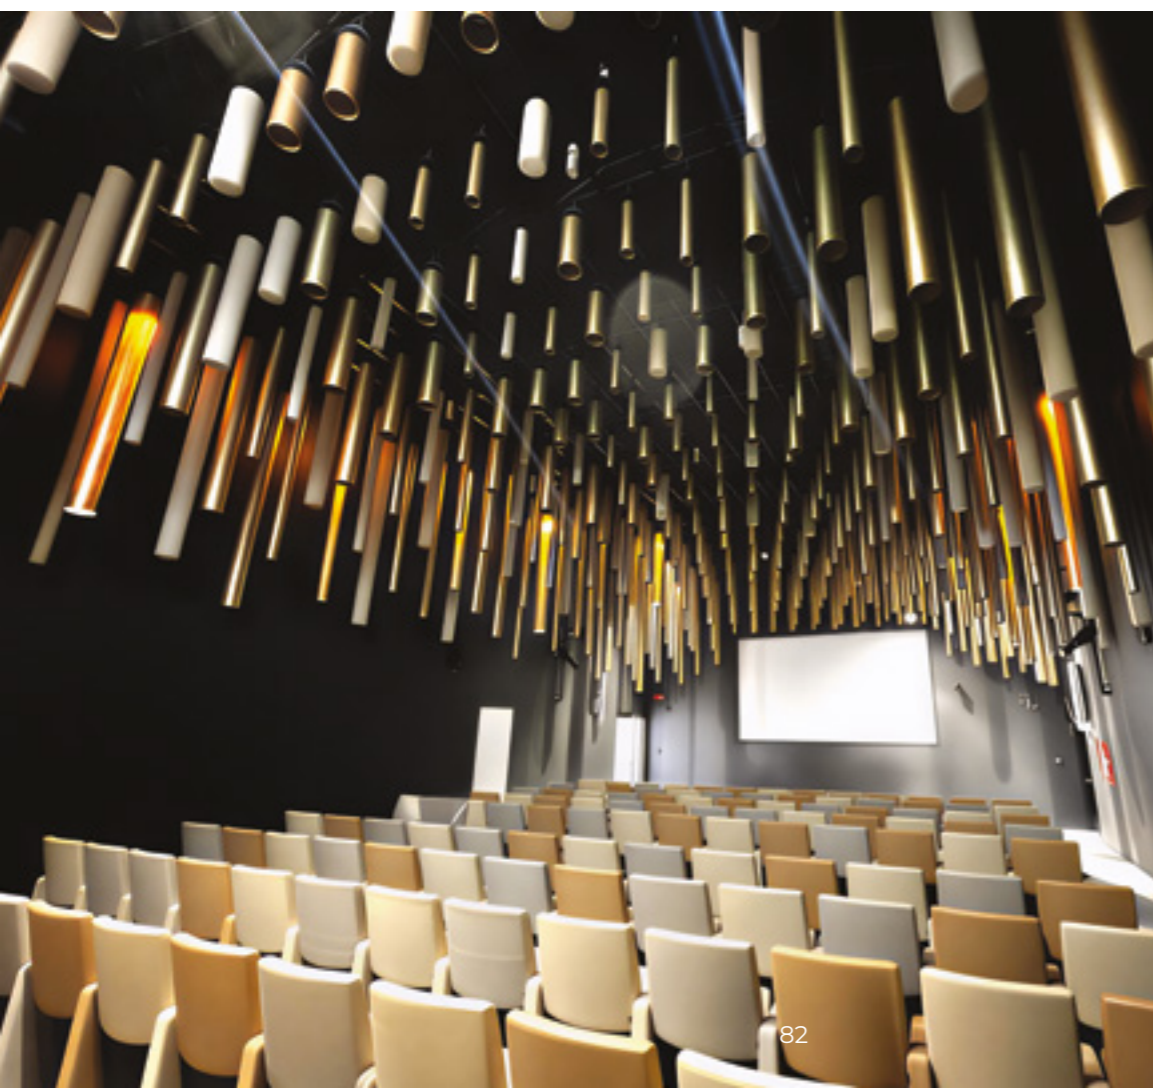

Free to create, tailored to any shape and design

I pannelli MyArtè vengono realizzati su misura, su disegno del cliente, in qualsiasi forma. Il rivestimento può anche essere personalizzato con immagini e fotografie stampate direttamente in ink-jet sul tessuto, perché l'arte per definizione è creatività senza limiti.

Les panneaux MyArtè sont réalisés sur mesure, selon le dessin du client, dans toutes les formes. Le revêtement peut également être personnalisé avec des images et des photographies imprimées directement sur le tissu à l'aide d'une imprimante à jet d'encre, car l'art, par définition, est une forme de créativité sans limites.

MyArtè panels are custom-made, based on the customer's design, in any shape. The covering can also be personalized with images and photographs printed directly on fabric using inkjet technology, because art, by definition, is creativity without limits.

Die MyArtè-Paneele werden nach Maß und nach Kundenwunsch in jeder beliebigen Form hergestellt. Die Verkleidung kann auch mit Bildern und Fotos individuell gestaltet werden, die direkt mit Tintenstrahl auf den Stoff gedruckt werden, denn Kunst ist per Definition grenzenlose Kreativität.

Color

Infinite tonalità per un comfort acustico unico

Infinite shades for unique acoustic comfort

Tutti i pannelli Artè sono rivestiti in tessuto Trevira CS, un poliestere con proprietà ignifughe permanenti che rimangono efficaci nel tempo e dopo lavaggi. Disponibile in 4 tipi di intreccio e in infinite colorazioni, garantisce sicurezza, durata e prestazioni antincendio secondo i più severi standard internazionali.

Tous les panneaux Artè sont recouverts de tissu Trevira CS, un polyester aux propriétés ignifuges permanentes qui restent efficaces dans le temps et après lavages. Disponible en 4 types de tissage et dans une infinité de couleurs, il garantit sécurité, durabilité et performances anti-incendie conformément aux normes internationales les plus strictes.

All Artè panels are covered in Trevira CS fabric, a polyester with permanent fire-retardant properties that remain effective over time and after washing. Available in 4 types of weave and in an infinite range of colours, it guarantees safety, durability and fire performance in accordance with the most stringent international standards.

Alle Artè-Paneele sind mit Trevira CS-Gewebe bezogen, einem Polyester mit dauerhaften feuerhemmenden Eigenschaften, die auch nach Waschen ihre Wirksamkeit behalten. Erhältlich in 4 Webarten und unzähligen Farben, garantiert es Sicherheit, Langlebigkeit und Brandschutz gemäß den strengsten internationalen Standards.
