IRIS  CRISTAL
BOHEMIA

OUR GOAL

We seek the optimal solution to achieve your objectives, addressing any challenges with a range of strategic approaches. It is deeply rewarding to see your vision realised and the project come true.

European-manufactured products.
Assembled in Spain.

INTRODUCTION

With a 40-year heritage and deep roots in the authentic Bohemian crystalmaking tradition of Old Bohemia, now the Czech Republic, our lineage extends to the 18th century. Our techniques of hand-drawing and hand-cutting crystal are centuries old.

Iris Cristal Bohemia interprets contemporary tastes and anticipates future trends with a universal language that, through the brilliance of light, articulates our values of expertise, innovation, and a passion for beauty.

Light is conceived as an energy that illuminates diverse interiors with creative dynamism, resulting in exquisitely crafted lighting fixtures that accentuate the crystal's quality, transparency, colours, and forms.

At Iris Cristal, skilled craftsmanship merges with refined design, tradition, and technology, becoming part of the time-honoured process—or indeed, the miracle—of crystalmaking, an alchemical fusion of natural elements.

Expert artisans transform fire, sand, pigments, and water into a malleable substance, enabling the creation of intricate and imaginative shapes.

Furthermore, our dedicated team of designers and our production facilities in the Czech Republic and Spain enable us to launch new chandelier collections biannually. These collections are globally recognised for their exceptional quality and distinctive design.

Our chandeliers adorn palaces, hotels, casinos, embassies, places of worship, and prestigious residences worldwide. We maintain an extensive repertoire of hundreds of designs spanning every period of crystal history, and we have been introducing contemporary and modern designs for over a decade.

Certain designs, such as Flame and Apolo, are particularly renowned among leading interior designers.

CREATIONS BY J. TORÁ

PRODUCTIONS & DESIGN

Customized models. Able to personalise any model to client's wishes. We are constantly developing and releasing new models.

INFINITY

Infinity is an exceptional catalogue, designed to showcase Iris Cristal's capabilities for its clients. This catalogue aims to demonstrate the creative prowess of our brand. As manufacturers, we possess a distinct advantage.

We treat Bohemian crystal with unparalleled craftsmanship and a unique approach, coupled with a process of designing and creating new models on a frequent basis. We are equipped to deliver even the most ambitious projects worldwide.
