NOTORIOUS

Creare oggetti a Firenze è un'arte antica che affonda le sue radici nel Rinascimento. E' qui che nel 1966 nasce l'azienda Marioni. In pochi anni avviene la rapida trasformazione da piccola bottega artigiana a solida realtà industriale che conquista spazi di mercato sempre più ampi in Italia e nel mondo. Fortemente connotata in senso familiare, nonostante le dimensioni attuali, l'impresa di quelle origini conserva il senso di appartenenza con la dedizione e l'impegno che ne derivano; della Toscana, terra d'elezione, la tipica innata creatività.

NOTORIOUS è la linea di prodotti ispirata al gusto degli interni degli anni '40. Una collezione completa che comprende mobili ed imbottiti, apparecchi illuminanti e complementi d'arredo nella quale l'utilizzo di finiture sofisticate trasmette immediatamente una sensazione di eleganza e raffinatezza. Essenze esotiche quali l'ebano ed il palissandro, materiali caldi come il cuoio, velluti di lana e marmi preziosi, cristalline dai riflessi iridescenti e metalli spazzolati, tutto richiama ad un'armonia di colori e forme. Il messaggio è chiaro: NOTORIOUS vuole dare un'identità alla creatività Made in Italy, combinando design e riscoperta della maestria artigiana. Lusso come oggetto unico, ricco di una propria storia e di un'identità forte e pertanto impossibile da riprodurre in grande serie.

Creating objects in Florence is an ancient art rooted in the Renaissance. It was here, in 1966, that Marioni was founded. Within just a few years, the company rapidly evolved from a small artisan workshop into a solid industrial enterprise, expanding its market presence in Italy and around the world. Despite its current size, the firm has retained its strong family identity, preserving the sense of belonging, dedication, and commitment that defined its origins—along with the innate creativity typical of Tuscany, its chosen homeland.

NOTORIOUS is a product line inspired by the taste and style of 1940s interiors. This comprehensive collection includes furniture and upholstered pieces, lighting fixtures, and home accessories, where the use of sophisticated finishes immediately conveys a sense of elegance and refinement. Exotic woods such as ebony and rosewood, warm materials like leather, wool velvets and precious marbles, crystal elements with iridescent reflections, and brushed metals—all evoke a harmonious interplay of colors and shapes.

The message is clear: NOTORIOUS aims to give identity to Made in Italy creativity by combining design with a rediscovery of artisanal mastery. Luxury is conceived as a unique object, enriched with its own story and a strong identity—therefore impossible to reproduce on a large scale.

Missione

Mission

Qualità

Quality

MARIONI è una moderna e dinamica impresa che offre alla clientela prodotti di elevata qualità e collabora con i migliori architetti, interior designer e contractor per trovare soluzioni sempre più esclusive. La sede è a Firenze dove l'arte di creare oggetti inconfondibili per raffinatezza ed estro affonda le sue radici nel Rinascimento. Tutte le collezioni rifiutano la grande serialità e possono essere personalizzate. La storia dell'azienda è così ricca di esperienze personali e valori umani che la rendono unica nel suo genere. Il rapporto che spesso nasce tra la committenza ed il nostro team creativo va al di là della semplice fornitura, sfociando spesso in un positivo e continuo scambio di idee stimolanti e proposte innovative: una visione che fa emergere MARIONI nel variegato panorama imprenditoriale italiano.

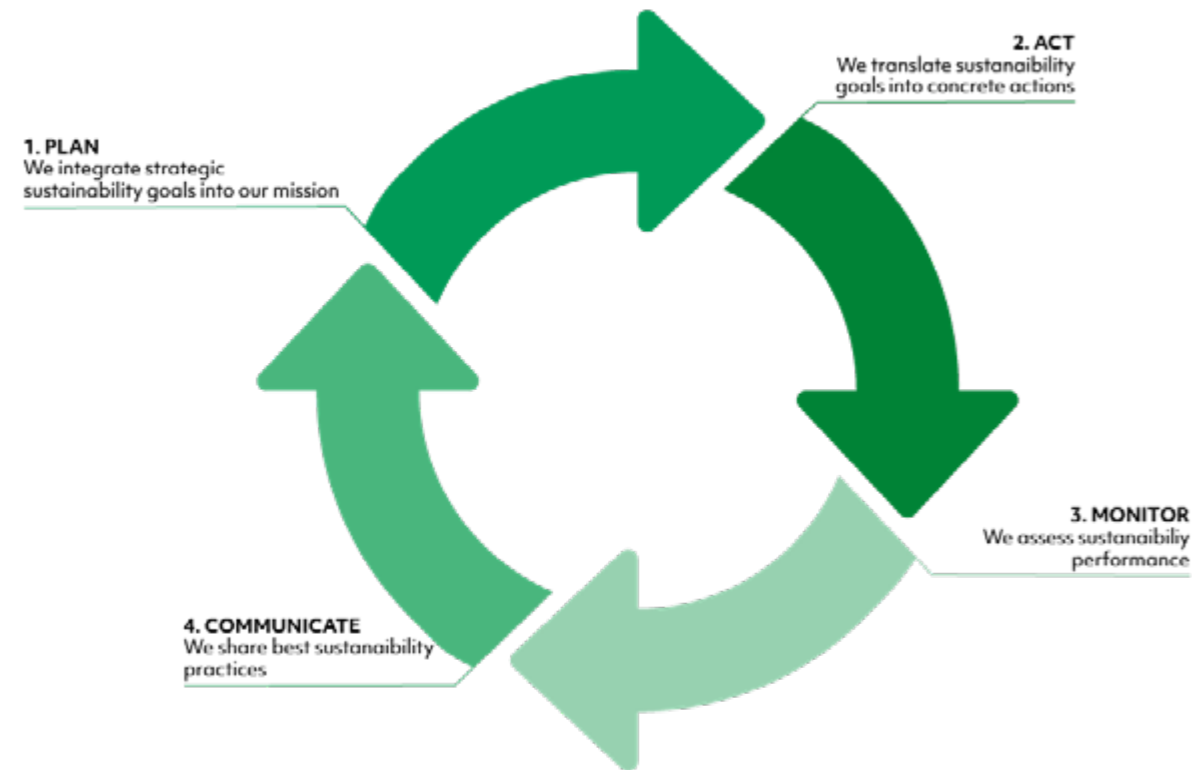

MARIONI is a modern and dynamic company that offers its clients high-quality products and collaborates with leading architects, interior designers, and contractors to develop increasingly exclusive solutions. The company is based in Florence, where the art of creating distinctive objects defined by refinement and creativity has its roots in the Renaissance. All collections reject mass production and can be customized. The company's history is rich in personal experiences and human values, making it truly unique in its field. The relationship that often develops between the client and our creative team goes beyond simple supply, frequently evolving into a positive and ongoing exchange of inspiring ideas and innovative proposals—an approach that distinguishes MARIONI within the diverse Italian business landscape.

Per noi la qualità è da sempre una delle priorità aziendali. Tutto il nostro personale è quotidianamente impegnato nel rispetto dei più alti standard qualitativi e di servizio. Lampade, complementi d'arredo, imbottiti e mobili esclusivi, sebbene interamente realizzati a mano con cura artigianale, devono sottostare ai più stringenti stress test e garantire comunque le proprie prestazioni nel tempo. Nel 2002 abbiamo raggiunto l'importante traguardo della Certificazione del Sistema di Gestione della Qualità Aziendale secondo la norma internazionale UNI EN ISO 9001:2015. Ogni anno un ente terzo verifica il rispetto delle procedure interne e monitora e valuta il mantenimento degli obiettivi aziendali. Le nostre collezioni vengono consegnate con un Certificato di Autenticità che garantisce e convalida la manifattura 100% made in Italy.

For us, quality has always been one of the company's top priorities. All our staff are committed every day to upholding the highest standards of quality and service. Lighting, furnishing accessories, upholstered pieces, and exclusive furniture—although entirely handcrafted with artisanal care—must undergo the most stringent stress tests and consistently guarantee their performance over time. In 2002, we achieved the important milestone of certification of our Company Quality Management System in accordance with the international standard UNI EN ISO 9001:2015. Every year, a third-party body verifies compliance with internal procedures and monitors and evaluates the achievement of corporate objectives. Our collections are delivered with a Certificate of Authenticity that guarantees and validates 100% Made in Italy manufacturing.

Our approach to sustainability

Marioni tra le sue priorità ha il rispetto per l'ambiente, ponendo la massima attenzione nei propri cicli produttivi con l'intento di ridurre al minimo le difettosità ed i consumi energetici.

A partire dal 2024 ci siamo posti l'obiettivo di introdurre in azienda la metodologia LCA. Il Life Cycle Assessment (LCA) segue una serie di standard internazionali che garantiscono un'analisi accurata e uniforme degli impatti ambientali di un prodotto lungo tutto il suo ciclo di vita.

Un altro importante obiettivo è la riduzione delle emissioni di CO2.

Stiamo perciò lavorando su:

- l'elettrificazione;
- l'economia circolare dei materiali.

A fine del 2026 introdurremo i primi prodotti progettati e realizzati nel rispetto dell'ESPR.

Among its top priorities, Marioni places great importance on environmental responsibility, paying the utmost attention to its production processes with the aim of minimizing defects and reducing energy consumption.

Starting in 2024, we set the objective of introducing the LCA methodology within the company.

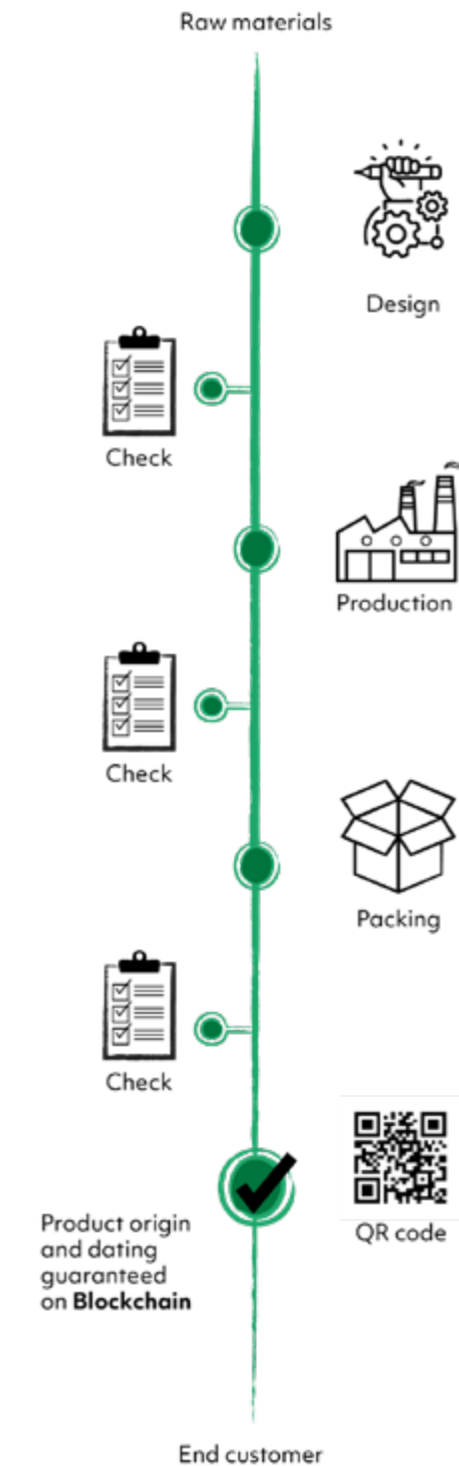

Life Cycle Assessment (LCA) follows a series of international standards that ensure accurate and consistent analysis of a product's environmental impacts throughout its entire life cycle.

Naturally, another key objective is the reduction of CO2 emissions.

We are therefore working on:

- Electrification
- Circular economy of materials

At the end of 2026, we will introduce our first products designed and manufactured in compliance with the ESPR framework

La tracciabilità dei prodotti è la possibilità di rintracciare le merci e ricostruirne la storia. Marioni ha deciso di investire su questo aspetto per garantire ai propri clienti sicurezza, efficienza e trasparenza.

Dal 2023 abbiamo iniziato un percorso per certificare la nostra filiera produttiva tramite blockchain. Con il progetto "PRODUP" è stata introdotta una procedura interna che ci permette di:

- tracciare le fasi di produzione e certificare la data di immissione sul mercato
- raccontare la sostenibilità dell'azienda e dei suoi prodotti
- ridurre la contraffazione

La tracciabilità è già attiva su circa 300 prodotti e verrà gradualmente estesa a tutte le collezioni.

Product traceability is the ability to track goods and reconstruct their history. Marioni has decided to invest in this area in order to guarantee its clients safety, efficiency and transparency.

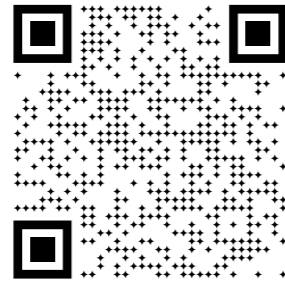

Since 2023, we have embarked on a process to certify our production supply chain through blockchain technology. With the "PRODUP" project, an internal procedure has been introduced that allows us to:

- track the various stages of production and certify the date of market release;
- communicate the company's and its products' sustainability credentials;
- reduce counterfeiting.

Traceability is already active on approximately 300 products and will gradually be extended to all collections.

Modelli 3D

3D Models

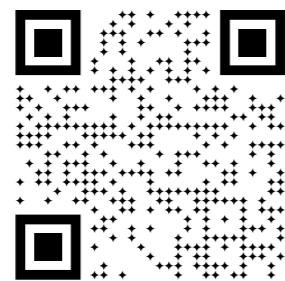

Per la maggior parte dei nostri prodotti sono disponibili modelli tridimensionali in diversi formati per uso professionale.
Per poter accedere al loro download gratuito utilizzate il QR code sotto riportato o registratevi nell'area riservata del nostro sito www.marioni.it.
I materiali (legni, smalti, tessuti e metalli) sono consultabili nell'area pubblica.

*For most of the items of our collection high-quality three-dimensional models are available for professional use.
For free download click on the below QR code or access the dedicated area of our web site www.marioni.it.
The materials (woods, glazes, textiles and metals) are visible in the public area.*

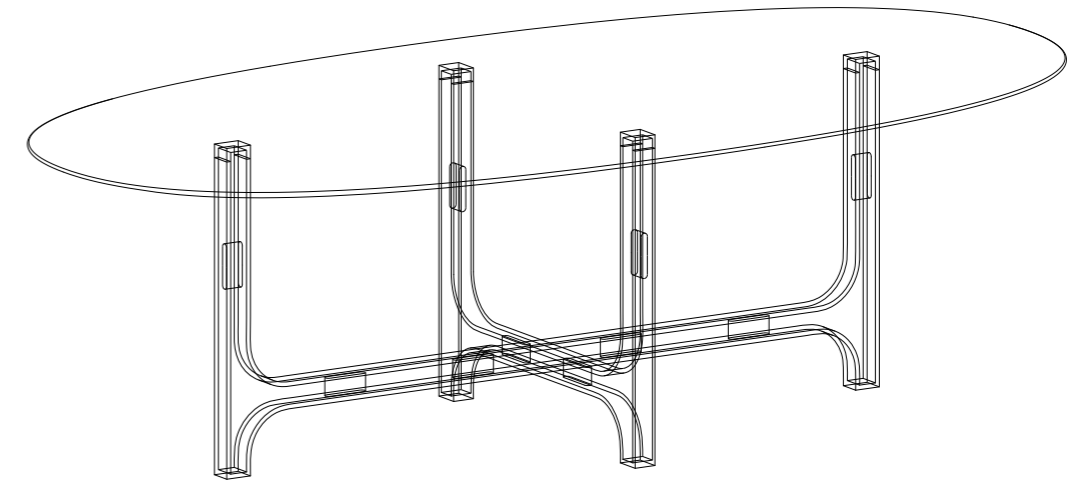

Materiali

Materials

Marioni offre una vasta gamma di smalti, tessuti e decorazioni per la personalizzazione delle proprie collezioni. Su richiesta è possibile realizzare trattamenti particolari anche per piccoli lotti. Il nostro Ufficio Commerciale è a Vostra disposizione per la fornitura di campioni reali.

Marioni offers a wide range of glazes, fabrics and decorations to customize its collections. Upon request special finishes can also be produced, even for small batches. Our Sales Office is at your disposal for the supply of real samples.
