CONCEPT

In linea con lo stile che richiama le antiche ville toscane inizia il percorso intrapreso da Marioni per una proposta sempre più ricca di oggetti raffinati, lavorati artigianalmente ed integrati tra loro anche nel più piccolo dettaglio. CONCEPT è una selezione di mobili, imbottiti, apparecchi di illuminazione e complementi capaci di infondere eleganza, comfort e calore in ogni ambiente. La collezione nasce dall'esigenza di esprimere uno stile arredativo globale contemporaneo, destinato alla decorazione della casa in generale, ma anche usufruibile in proposte contract.

In line with the style that recalls the ancient Tuscan villas starts the route taken by Marioni for a proposal increasingly rich in simple and refined items, handcrafted and integrated each other. CONCEPT is a selection of furniture, upholstery, lighting fixtures and accessories capable of instilling elegance, comfort and warmth that comes from the need to express a global contemporary furnishing style, for the decoration of the house in general, but also suitable for contract proposals.

Missione

Mission

Qualità

Quality

MARIONI è una moderna e dinamica impresa che offre alla clientela prodotti di elevata qualità e collabora con i migliori architetti, interior designer e contractor per trovare soluzioni sempre più esclusive. La sede è a Firenze dove l'arte di creare oggetti inconfondibili per raffinatezza ed estro affonda le sue radici nel Rinascimento. Tutte le collezioni rifiutano la grande serialità e possono essere personalizzate. La storia dell'azienda è così ricca di esperienze personali e valori umani che la rendono unica nel suo genere. Il rapporto che spesso nasce tra la committenza ed il nostro team creativo va al di là della semplice fornitura, sfociando spesso in un positivo e continuo scambio di idee stimolanti e proposte innovative: una visione che fa emergere MARIONI nel variegato panorama imprenditoriale italiano.

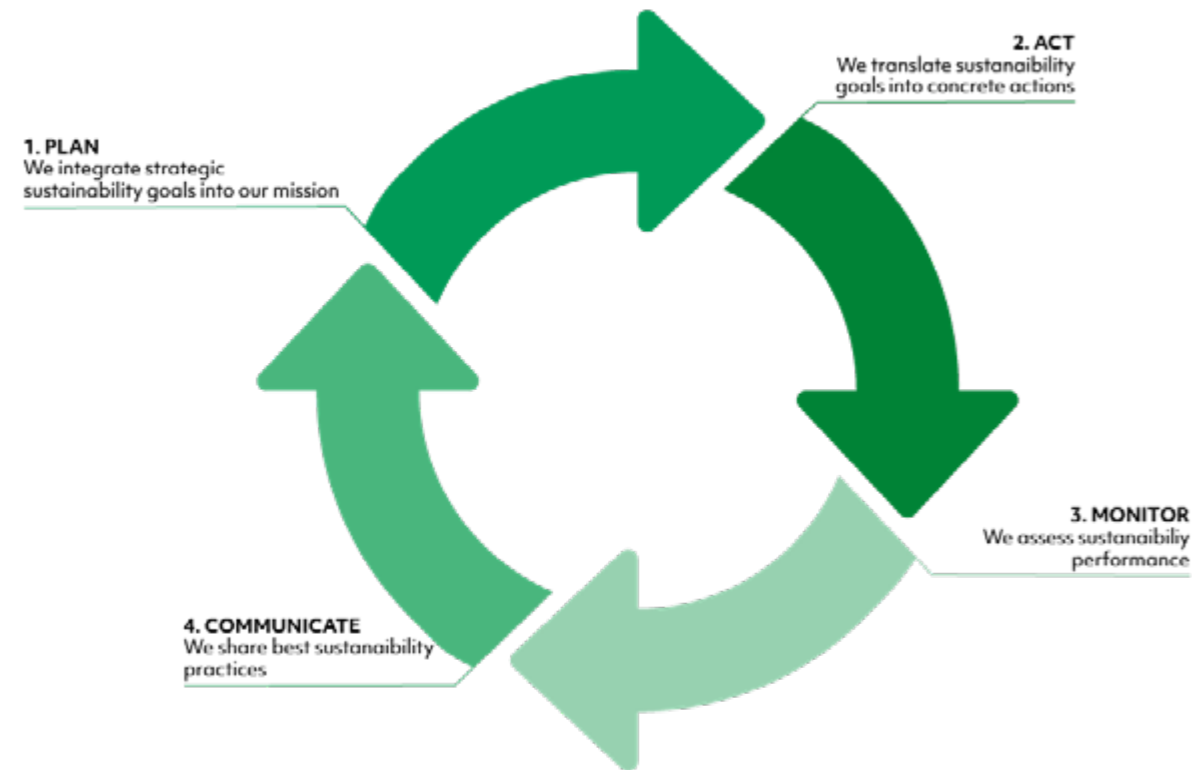

MARIONI is a modern and dynamic company that offers its clients high-quality products and collaborates with leading architects, interior designers, and contractors to develop increasingly exclusive solutions. The company is based in Florence, where the art of creating distinctive objects defined by refinement and creativity has its roots in the Renaissance. All collections reject mass production and can be customized. The company's history is rich in personal experiences and human values, making it truly unique in its field. The relationship that often develops between the client and our creative team goes beyond simple supply, frequently evolving into a positive and ongoing exchange of inspiring ideas and innovative proposals—an approach that distinguishes MARIONI within the diverse Italian business landscape.

Per noi la qualità è da sempre una delle priorità aziendali. Tutto il nostro personale è quotidianamente impegnato nel rispetto dei più alti standard qualitativi e di servizio. Lampade, complementi d'arredo, imbottiti e mobili esclusivi, sebbene interamente realizzati a mano con cura artigianale, devono sottostare ai più stringenti stress test e garantire comunque le proprie prestazioni nel tempo. Nel 2002 abbiamo raggiunto l'importante traguardo della Certificazione del Sistema di Gestione della Qualità Aziendale secondo la norma internazionale UNI EN ISO 9001:2015. Ogni anno un ente terzo verifica il rispetto delle procedure interne e monitora e valuta il mantenimento degli obiettivi aziendali. Le nostre collezioni vengono consegnate con un Certificato di Autenticità che garantisce e convalida la manifattura 100% made in Italy.

For us, quality has always been one of the company's top priorities. All our staff are committed every day to upholding the highest standards of quality and service. Lighting, furnishing accessories, upholstered pieces, and exclusive furniture—although entirely handcrafted with artisanal care—must undergo the most stringent stress tests and consistently guarantee their performance over time. In 2002, we achieved the important milestone of certification of our Company Quality Management System in accordance with the international standard UNI EN ISO 9001:2015. Every year, a third-party body verifies compliance with internal procedures and monitors and evaluates the achievement of corporate objectives. Our collections are delivered with a Certificate of Authenticity that guarantees and validates 100% Made in Italy manufacturing.

Our approach to sustainability

Marioni tra le sue priorità ha il rispetto per l'ambiente, ponendo la massima attenzione nei propri cicli produttivi con l'intento di ridurre al minimo le difettosità ed i consumi energetici.

A partire dal 2024 ci siamo posti l'obiettivo di introdurre in azienda la metodologia LCA. Il Life Cycle Assessment (LCA) segue una serie di standard internazionali che garantiscono un'analisi accurata e uniforme degli impatti ambientali di un prodotto lungo tutto il suo ciclo di vita.

Un altro importante obiettivo è la riduzione delle emissioni di CO2.

Stiamo perciò lavorando su:

- l'elettrificazione;
- l'economia circolare dei materiali.

A fine del 2026 introdurremo i primi prodotti progettati e realizzati nel rispetto dell'ESPR.

Among its top priorities, Marioni places great importance on environmental responsibility, paying the utmost attention to its production processes with the aim of minimizing defects and reducing energy consumption.

Starting in 2024, we set the objective of introducing the LCA methodology within the company.

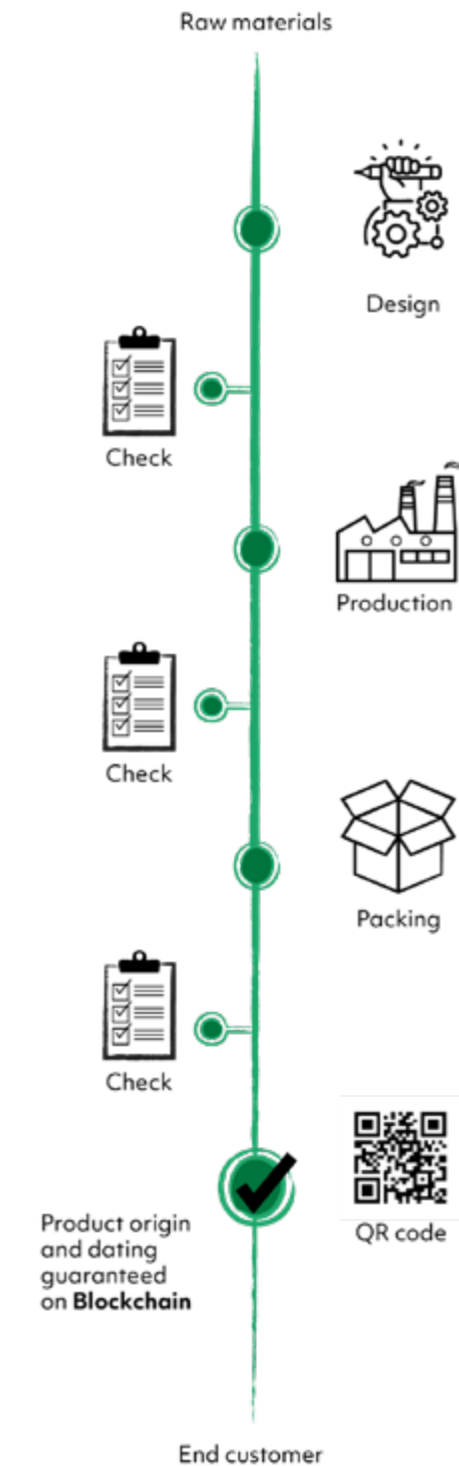

Life Cycle Assessment (LCA) follows a series of international standards that ensure accurate and consistent analysis of a product's environmental impacts throughout its entire life cycle.

Naturally, another key objective is the reduction of CO2 emissions.

We are therefore working on:

- Electrification
- Circular economy of materials

At the end of 2026, we will introduce our first products designed and manufactured in compliance with the ESPR framework

La tracciabilità dei prodotti è la possibilità di rintracciare le merci e ricostruirne la storia. Marioni ha deciso di investire su questo aspetto per garantire ai propri clienti sicurezza, efficienza e trasparenza.

Dal 2023 abbiamo iniziato un percorso per certificare la nostra filiera produttiva tramite blockchain. Con il progetto "PRODUP" è stata introdotta una procedura interna che ci permette di:

- tracciare le fasi di produzione e certificare la data di immissione sul mercato
- raccontare la sostenibilità dell'azienda e dei suoi prodotti
- ridurre la contraffazione

La tracciabilità è già attiva su circa 300 prodotti e verrà gradualmente estesa a tutte le collezioni.

Product traceability is the ability to track goods and reconstruct their history. Marioni has decided to invest in this area in order to guarantee its clients safety, efficiency and transparency.

Since 2023, we have embarked on a process to certify our production supply chain through blockchain technology. With the "PRODUP" project, an internal procedure has been introduced that allows us to:

- track the various stages of production and certify the date of market release;
- communicate the company's and its products' sustainability credentials;
- reduce counterfeiting.

Traceability is already active on approximately 300 products and will gradually be extended to all collections.

Modelli 3D

3D Models

Per la maggior parte dei nostri prodotti sono disponibili modelli tridimensionali in diversi formati per uso professionale.
Per poter accedere al loro download gratuito utilizzate il QR code sotto riportato o registratevi nell'area riservata del nostro sito www.marioni.it.
I materiali (legni, smalti, tessuti e metalli) sono consultabili nell'area pubblica.

*For most of the items of our collection high-quality three-dimensional models are available for professional use.
For free download click on the below QR code or access the dedicated area of our web site www.marioni.it.
The materials (woods, glazes, textiles and metals) are visible in the public area.*

Materiali

Materials

Marioni offre una vasta gamma di smalti, tessuti e decorazioni per la personalizzazione delle proprie collezioni. Su richiesta è possibile realizzare trattamenti particolari anche per piccoli lotti. Il nostro Ufficio Commerciale è a Vostra disposizione per la fornitura di campioni reali.

Marioni offers a wide range of glazes, fabrics and decorations to customize its collections. Upon request special finishes can also be produced, even for small batches. Our Sales Office is at your disposal for the supply of real samples.
