LIGHTING

COLLECTION

8

FLOOR LIGHT

DESIGNED BY
SEBASTIAN HERKNER

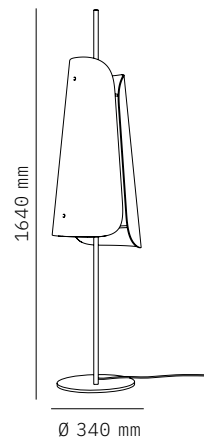

BENT TWO

Resembling a lampshade but with a room-filling presence, Bent Two is defined by its curved section of glass. The regularly grooved yet irregular surface is created by casting molten glass into a specially designed mold, giving each handmade piece its own unique character.

1600 lm

10

WALL LIGHT

DESIGNED BY
SEBASTIAN HERKNER

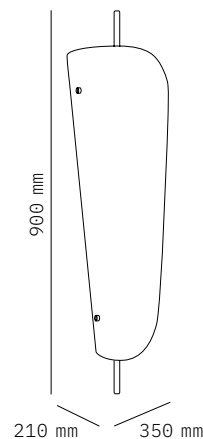

BENT WALL

Bent Wall is a distinctive wall lamp that merges the elegance of a lampshade with a bold, architectural presence. Its signature feature – a hand-cast curved glass element – integrates seamlessly into the wall, creating a captivating play of light and shadow. The glass surface, marked by irregular grooves and organic patterns, is the result of a thoughtful collaboration between traditional craftsmanship and contemporary design.

1600 lm

12

FLOOR +
TABLE LIGHT

DESIGNED BY
SEBASTIAN HERKNER

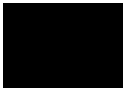

BOULE

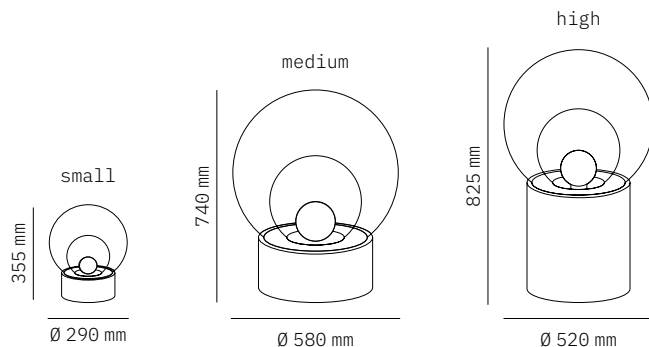

Sebastian Herkner's Boule is a pure homage to the traditional French Pétanque game, a version of boule. The object plays with luminance by stacking different versions of clear and coloured handblown glass, set on a base of handmade ceramics or stone in various heights and colours.

TABLE LIGHT

DESIGNED BY
MICKAËL KOSKA

CACTUS

The symmetry of tall grown, succulent ensembles inspired French designer Mickaël Koska to form an illuminating sculpture for living spaces. His work with Cactus underlines what he calls "to give life to surprising natural creations", preferring simple lines and focus on the essential.

16

FLOOR LIGHT

DESIGNED BY
KAI LINKE

KOKESHI

Designer Kai Linke, deeply influenced by Japanese culture, draws inspiration from traditional Kokeshi dolls and their slender, oval forms. His stylised interpretation pairs a tactile ceramic torso with a delicately handblown glass head that emits a soft glow—available in either white, grey. The result is a quietly expressive object that balances craftsmanship, cultural reference, and contemporary design.

18

FLOOR +
TABLE LIGHT

DESIGNED BY
NO-MADE

KUMO

no-made, the Dutch design team of Cleo Maxime and Linde Freya, enjoy combining materials with cultural dialogue. Kumo, their series of table and floor lighting, is modelled in the style of arbitrary cloudscares, and the surface resembles Japanese paper lanterns. Their glowing silhouettes, resulting from soft, golden colours on frosted glass, rest on solid limestone.

TABLE LIGHT

DESIGNED BY
SEBASTIAN HERKNER

ODA

Directly inspired by the industrial monuments photographed by the famous artists Bernd and Hilla Becher, Sebastian Herkner bundles up the outer shape of water towers for Oda. As a result, the glowing homage to light is a source for cosiness and has since then become a reference to contemporary lighting design.

TABLE LIGHT

DESIGNED BY
VICTORIA WILMOTTE

SFERA

The Sfera light stands out with its bold triangular steel frame, available in either a high-glossy finish or with a velvety glaze. Three hand-blown globes radiate a crisp, sculptural light, creating a stark and artistic ambiance—perfectly embodying the archaic and avant-garde world of Victoria Wilmotte.

PENDANT LIGHT

DESIGNED BY
SEBASTIAN HERKNER

STELLAR PENDANT

Inspired by the intergalactic, Sebastian Herkner has used repetition in pattern and geometric sensibility to create a collection bordering on the unidentified. Appearing like deep ravines on the moons surface, its handblown glass form reveals a semi-sphere full of curved ridges. Frosted acetate is added to its smooth opposite, creating a warming glow.

WALL LIGHT

DESIGNED BY
SEBASTIAN HERKNER

STELLAR WALL

Raised up above the clouds on a simple black powder coated steel base, Stellar Wall will shine across your interior universe. A grouping of starlike spheres mixes frosted acetate illumination with a textured ripple. These handblown glass spheres offer the perfect mix of elegance and mystery for the rest of your interior to orbit.

COFFEE TABLE

DESIGNED BY
SEBASTIAN HERKNER

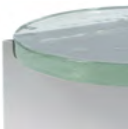

ALWA ONE

Normally, glass is regarded as being lightweight with sharp edges. In contrast, Sebastian Herkner's Alwa One is massive and possesses gentle contours. The raw, hot, glass mass with its natural bubbles is an imprint of the structure, including the uneven, sensitive surface. So nice to touch...but also ideal for placing a variety of items.

ALWA TWO

Solid yet soft in appearance, Alwa Two retains the unique character of the original glass top—complete with natural bubbles and an uneven, tactile surface. Its difference lies in the base: a sleek, cross-shaped metal construction that adds visual lightness and structural contrast. A sculptural piece that balances transparency and strength with ease.

ALWA THREE

With the same generous, textured glass top as its siblings, Alwa Three stands out through its bold, cylindrical glass base. This grounded foundation offers a striking interplay between materiality and form. Gentle to the touch, with a presence that's anything but fragile, Alwa Three is an object of lasting impression.

ALWA SQUARE

The successful Alwa series expands: Alwa Square translates the collection's signature hand-cast glass top into a new, square form. Each piece combines thick, solid-coloured glass with a delicate metal frame or a mouth-blown glass cylinder – available in three sizes and various finishes. From round to square, each table is a one-of-a-kind creation – shaped by hand, marked by subtle variations, and defined by its material character.

CABINET

DESIGNED BY
VISSER & MEIJWAARD

LYN

The doorless and diverse series of cabinets and high boards are equivalent to the designers' ambition to rethink established forms, like they did in their past as fashion designers. The reduction to the absolute essential form opens a free interplay of material and colour. Depending on the lighting conditions and the viewer's perspective, Lyn casts the utmost of diverse highlights.

DAY BED

DESIGNED BY
SEBASTIAN HERKNER

PALLET

Thinking about the first significant furniture for pulpo with the typical spontaneous, artistic and crafted attitude, Sebastian Herkner wanted to design a simple but also well refined day bed. Pallet is composed of a wooden base and a soft mattress, covered with high quality fabric. The mattress is fixed to the base with a cuff made of the same fabric or leather.

CHAIR

DESIGNED BY
STUDIO BRICHET-ZIEGLER

PILOTA

Starting from a simple construction, ending in a seat with refined but strong lines. This low chair offers a comfortable and very sculptural seat. It is composed of two rolled, painted sheet metal shells, whose empty body is covered by the seat and the backrest. Despite the simplicity of the structure, the generous shapes create a bold and impressive design.
