PASSION

For 15 years, Baccarat and Marcel Wanders have enjoyed a very strong bond. Alongside the designer, the Manufacture's artisans have pushed the boundaries of their craft to offer an immersive experience with masterpieces that defy the imagination. Driven by a unique sense of theatricality, limitless creativity, and inspiration from the Baccarat artisans' variety of skills, Marcel Wanders infuses each collection with a breath of modern poetry. Whether giving life to an entire forest of crystal or revisiting the Maison's icons, from the Harcourt glass to the Zenith chandelier, the Dutch designer has captured the essence of Baccarat and taken it to new horizons. Reflecting the fusion of craftsmanship and design, tradition, and innovation, past and future, each Baccarat creation by Marcel Wanders is more than a piece to be admired—it is an invitation to dream and enter into a truly enchanting universe.

JOY

Unveiled in 2014, the daring and successful masterpiece, New Antique, marked the beginning of a collection born to celebrate Baccarat's 260th anniversary. Blending materials and aesthetic codes in a subtle dialogue between heritage and the avant-garde, the New Antique vase makes crystal sparkle with fresh, seductive lines, refracting a dazzling light. Fusing the purity of crystal with the sophistication of white Carrara marble, the New Antique piece was designed to surprise the world and begin a richer story.

Today, ten years later, New Antique takes on another dimension with a collection of original pieces that echo Baccarat's acclaimed masterpieces from major World Fairs.

## NEW ANTIQUE, THE ANNIVERSARY COLLECTION.

### MONUMENTAL

Limited and numbered edition of 8

“Monumental” offers a unique opportunity to enter into the legend of Baccarat and experience the grandeur of crystal, shaped by passion and dreams for 260 years. Pushing the boundaries of what is possible, this sculpture of spectacular proportions pays homage to the Manufacture’s masterpieces, which have won awards at major World Fairs. The quintessence of craftsmanship, «Monumental» brings together Baccarat’s greatest talents, including a Chevalier des Arts et des Lettres and several Meilleurs Ouvriers de France, alongside the Dutch designer, Marcel Wanders. Standing 1.40 meters high, with a diameter of 74 centimeters, weighing 271 kilograms, and boasting a myriad of fascinating reflections, each piece is the fruit of unique expertise and takes six months to create. To make the dream a reality, traditional craftsmanship is combined with remarkable ingenuity. The complexity of the structure disappears, revealing the pure magic of a monumental masterpiece.

### SOLAR

Limited and numbered edition of 260

A celebration of Baccarat’s radiant energy, Solar plays with contrast. Crystal and marble, power and finesse, transparency and opacity, angles and curves blend into a captivating visual paradox. Sculpture, vase, or bowl—one piece or two—Solar transforms with the whim of inspiration. To bring this masterpiece to life, Baccarat summoned the essence of its craftsmanship. In a meticulous choreography, the magicians of fire transform molten material into a glowing sun.

### AMPHORA

Inspired by the silhouette of Asian porcelain amphoras, the Amphora vase boldly blends tradition and innovation. The timeless elegance of its lines is combined with a New Antique cut motif that reflects light in an infinite play of reflections. This dazzling creation, with or without flowers, merges two vases into one to suit every taste.

### PRIMA

Its name evokes fundamental, essential energy. Inspired by his majestic Kings of the Forest, created as a limited edition in 2010, Prima is the first all-crystal vase designed by Marcel Wanders. This piece, with its pure silhouette, is a tribute to the New Antique cut in all its splendor. Each of its facets exalts the beauty of crystal, while its weight is a testament to its grandeur and complexity.

### MIRAGE DUAL

From the most imposing to the most delicate, all the while preserving its enchantment and brilliance. The Mirage vase changes scale, reinvented as a multi-faceted creation: in turn candleholder, photophore and bud vase, Mirage Dual lends itself to every desire and invites you to create surprising combinations.

### MIRAGE AMBRE

Limited and numbered edition of 18

Dream or reality? An alliance of Harcourt and New Antique codes, of crystal and marble, this imposing creation over 1.17 meters high merges two vases into one. Between mirror effect and optical illusion, the Mirage vase plays with perspective, leaving no one indifferent. In 2024, it bursts into flames, crafted in amber crystal, as a tribute to the fire of passion that has driven the artisans of the Manufacture for 260 years.

### AURA

A precious little piece combining the purity of crystal and the refinement of white marble, the Aura candleholder diffuses an enchanting light that captures the eye. The glow of the candle through the crystal makes the New Antique motif dance, creating a striking interplay of reflections.

### CLOCHETTE

A poetic evocation of the melody of crystal, the Clochette New Antique offers a unique lighting experience. Wireless and tactile, this nomadic lamp brings spaces to life with a touch of magic. The patterns sculpted into the crystal project fascinating reflections, creating a warm, refined atmosphere. A companion for intimate or shared moments, Clochette embodies celebration at every moment.

### CHANDELIER & CEILING UNIT

A master in the art of harmoniously blending past and future, craftsmanship and innovation, whether stylistic or technical, Marcel Wanders drew inspiration from Baccarat's emblematic chandelier clochettes to design a lighting collection imbued with elegance and enchantment. Like a suspended dream, its clochettes dance in the air, held in place by an almost invisible thread.

Adorned with the New Antique cut motif, they amplify light in a symphony of sparkling reflections. The 10-light centerpiece features a clochette in red, the Maison's signature color obtained with 24-carat gold powder.
