**CHIARA PROVASI**

DESIGN

Chiara Provasi è un interior designer con una clientela prestigiosa e internazionale.

I suoi lavori si distinguono per la sua filosofia eclettica e molto personale, in cui antico e moderno si mescolano in maniera originale, libera da regole prestabilite e schemi stilistici, e giungono ad una nuova dimensione di equilibrio, nostalgica ed inedita allo stesso tempo.

La sua idea di design è lontana dal concetto di puro esercizio di stile; è invece profondamente legata al dialogo tra committente e designer, alla progettazione di spazi pensati su misura per una clientela esigente e raffinata.

Uno degli obiettivi fondamentali della sua ricerca progettuale è disegnare spazi che rappresentino l'espressione del gusto e della personalità di chi li abita.

Lo spazio architettonico è pensato come luogo dell'abitare nel senso pieno e deve rispondere non soltanto a quesiti di forma e funzione, ma deve soprattutto rispondere alla necessità delle soddisfazioni interiori.

Il colore per le sue qualità espressive ha un ruolo dominante in questo affascinante viaggio che è il percorso progettuale: è un punto fermo da cui cominciare a narrare storie sempre diverse.

La ricerca di accostamenti unici e particolari, di tessuti preziosi e materiali di alto livello, è importante tanto quanto il disegno, la forma dell'oggetto.

Chiara Provasi respira fin da bambina l'amore per il gusto e per l'alta qualità artigianale: eredita dal padre, fondatore di un'azienda di arredamento di fama internazionale e collezionista d'arte e di antiquariato, l'amore per la tradizione e per la ricerca stilistica.

Accompagna i suoi genitori nei loro numerosi viaggi alla ricerca di oggetti dal design unico e si lascia contaminare dalle culture diverse, dai profumi, dai colori, e dalle forme nuove, riportando a casa insieme ai ricordi e alle ispirazioni per la sua fantasia, taccuini pieni disegni di architetture e di spazi che la affascinano.

Dopo la laurea in architettura conseguita al Politecnico di Milano, lavora nel settore dell'arredamento per diversi anni, disegnando e realizzando prodotti di produzione artigianale e progettando interni di case prestigiose in tutto il mondo.

Disegnare la scenografia dello spazio con grande attenzione e cura per il dettaglio e interpretare con sensibilità i sogni di chi lo abita, è stata quindi una naturale evoluzione nel suo percorso di crescita creativo.

Oggi Chiara Provasi firma i suoi progetti di architettura di interni e una collezione di prodotti di arredamento dall'altissimo standard qualitativo.

Chiara Provasi is an interior designer with a prestigious international clientele.

Her work stands out for its highly personal, diversified approach.

She combines ancient and modern in an original fashion, free of pre-conceived rules and stylistic formulas, and achieves a new level of equilibrium which is both nostalgic and original.

Her idea of design is a long way from the notion of a pure exercise in style.

It is closely linked to a dialogue between customer and designer, to the designing of spaces made to measure for a demanding, refined clientele.

One of the basic aims of her research in design is to create spaces expressing the taste and personality of those who live there.

Architectural space is conceived as a habitat in the full sense of the term and must respond not only to demands of shape and function but above all to the need for inner satisfaction.

With its expressive qualities, colour has a dominant role in the fascinating journey from the start to the finish of a design.

It is a fixed point where you can begin to tell a different story each time.

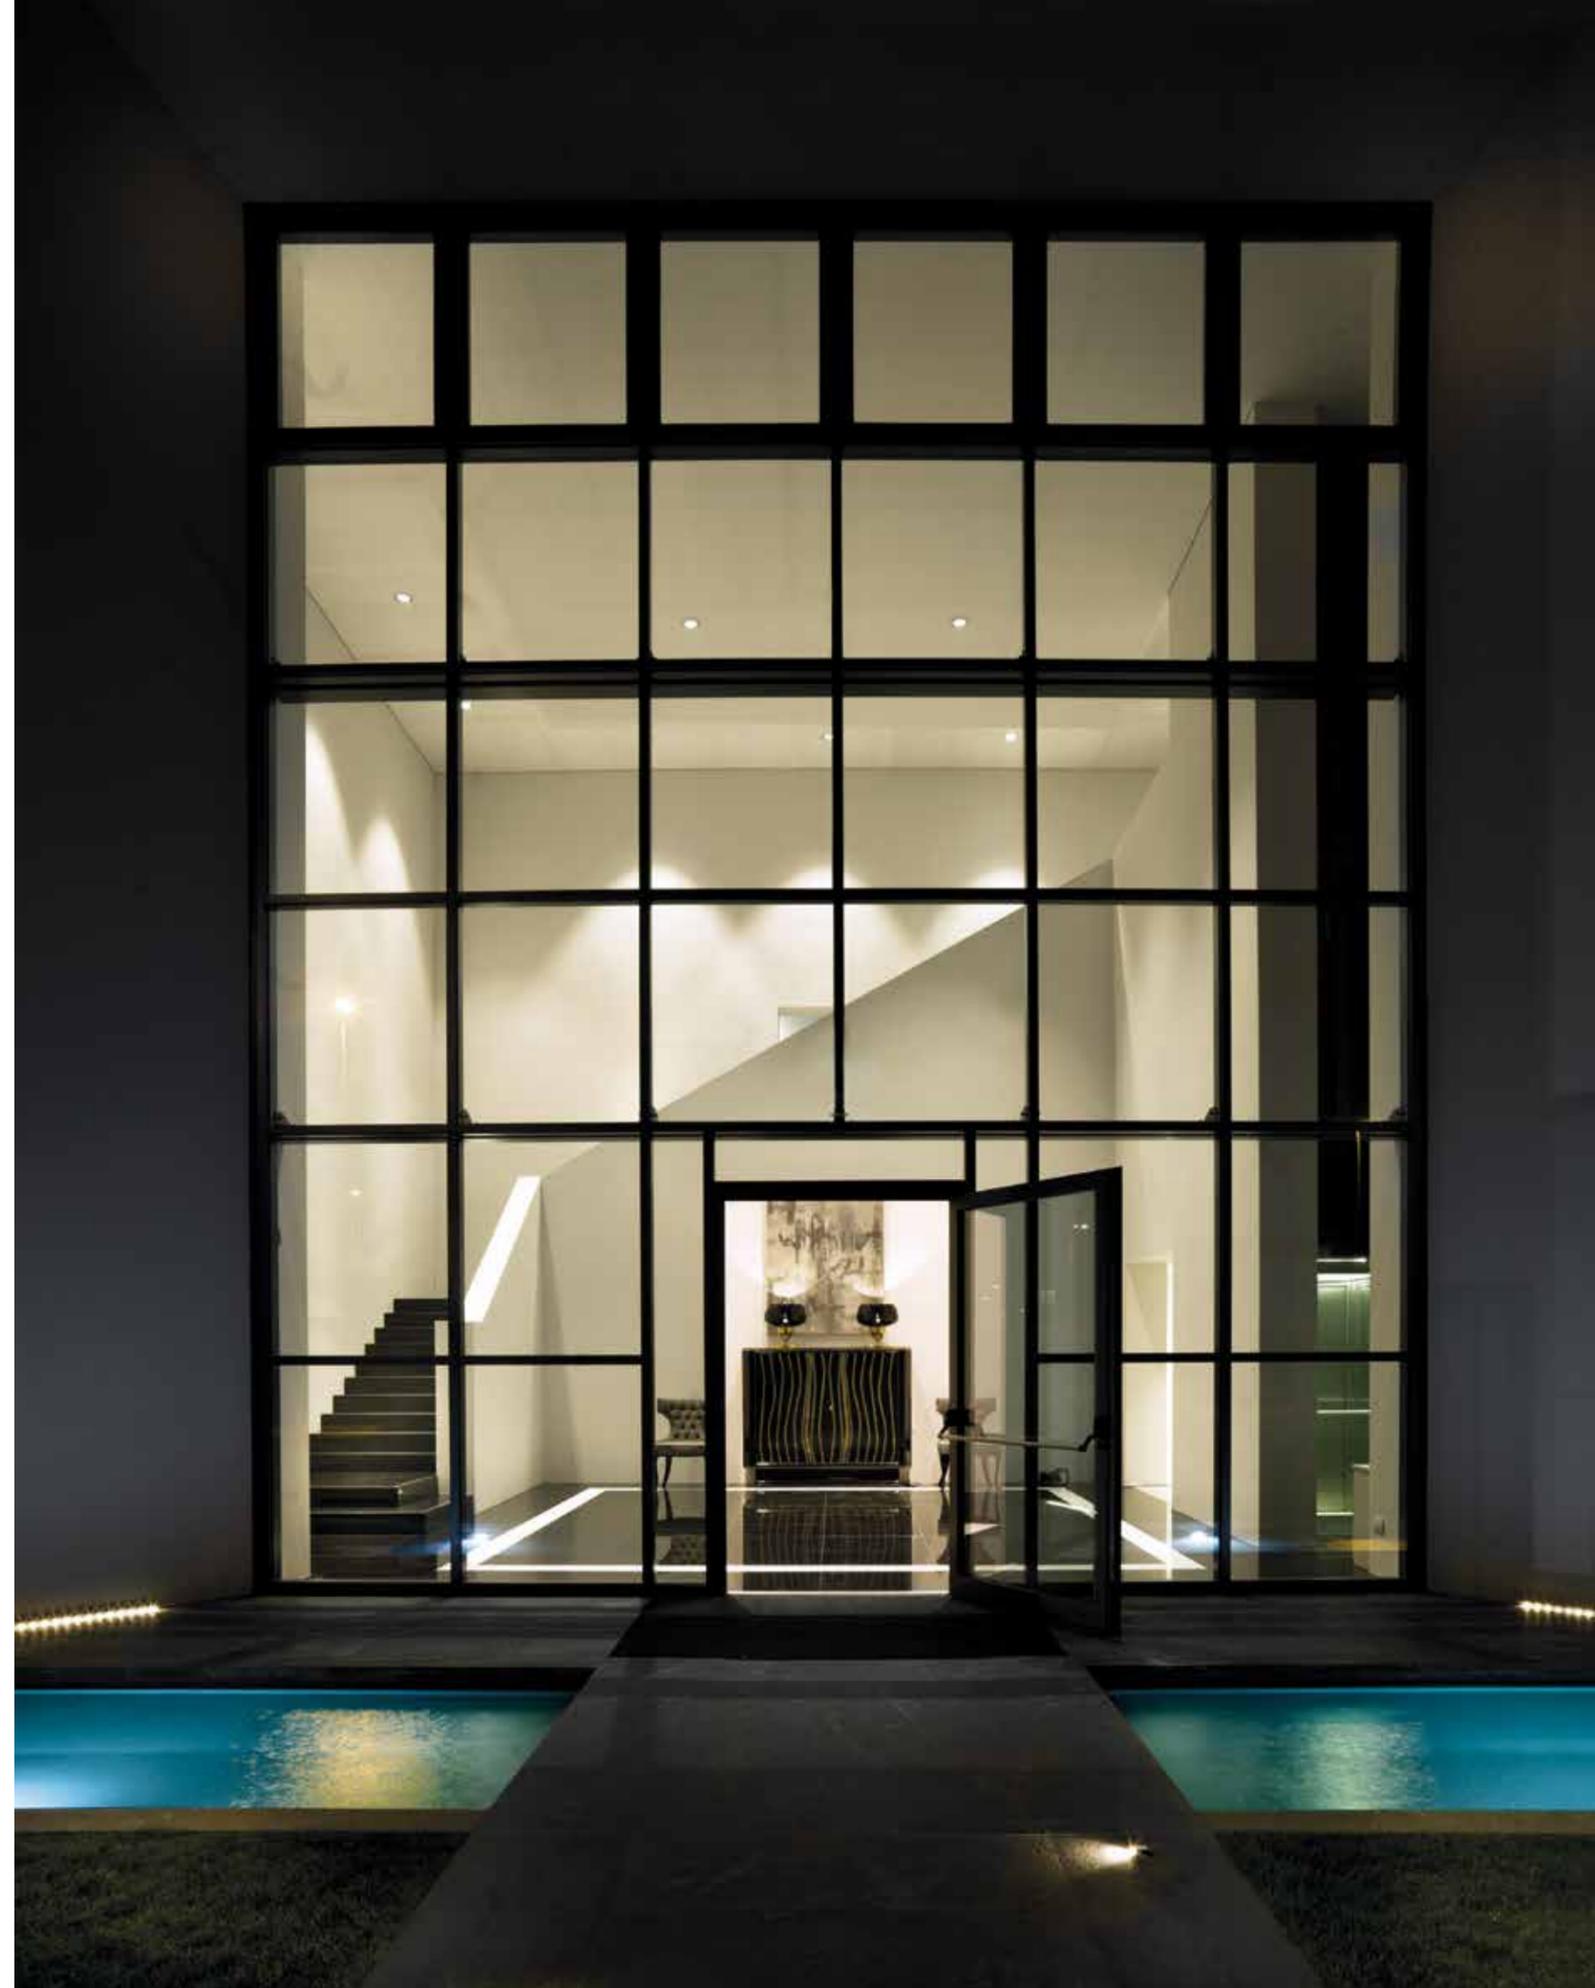

The search for unique, distinct combinations of precious fabrics with high-level materials is as important as the object's design, its shape.

Right from early childhood Chiara Provasi developed a love for taste and high-quality workmanship. Her father was the founder of an internationally renowned furniture company and a collector of art and antiques; she inherited his love for tradition and research into style.

She accompanied her parents on their many journeys in the pursuit of objects of a unique design, absorbing the influence of different cultures, with new perfumes, colours and forms. Along with her memories and inspiration for her creativity, she brought home notebooks full of drawings of architecture and spatial design that had intrigued her.

After graduating in architecture at Milan Polytechnic, she worked in the furniture industry for several years, designing and creating products of craft manufacture and designing the interiors of houses of world prestige. Designing the scenography of spaces with great care and attention to detail, sensitively interpreting the dreams of those who live there, has thus been a natural evolution in her process of creative growth.

Today Chiara Provasi puts her signature to her interior architectural designs and to a collection of furniture products made to a very high standard of quality.
