WAVE

Seating System / Art. CU.37

WAVE is an evocatively curvaceous modular system that invites you to play with space in innovative ways.

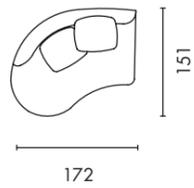

Elegant and freeform, this sectional piece can be configured to shape each unique environment, creating a sculptural centrepiece. With its low-lying form and ornamental fringe detailing, WAVE brings a tactile yet ultra contemporary narrative to the full design story.

WAVE has been created with a solid wooden structural base, sectional polyurethane foam filling and crafted with a plush goose down seat rests, cushions and decorative pillows.
