SIXTIES WOOD

Il legno ha sempre un suo fascino.

Ogni essenza ha una sua particolarità che la rende unica; anche per questo abbiamo desiderato ampliare la scelta dei legni in Sixties.

Wood always has its own charm.

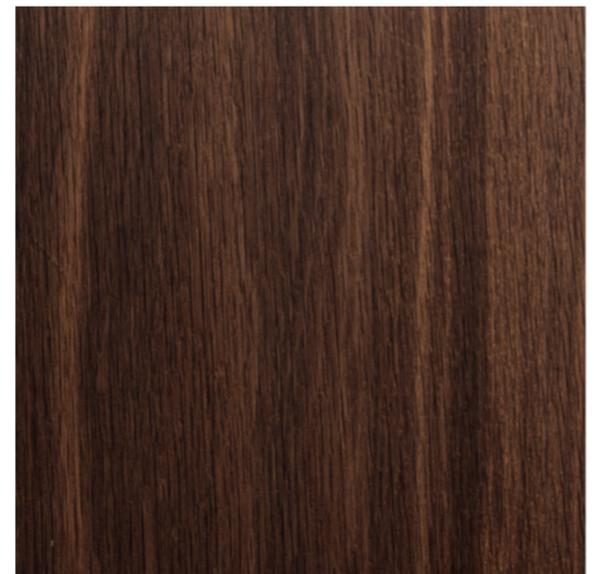

Each essence has its own particularity that makes it unique; also for this we wanted to expand the choice of woods in Sixties.

METALLIZED

Attraverso la nostra costante ricerca siamo giunti alle finiture metallizzate che, in particolare sulle superfici ondulate da 3 o 6 cm prendono vita, creando dei scenografici giochi di luce. Tali finiture sono utilizzabili anche sulle parti piane.

Through our constant research, we have come to metallic finishes that, particularly on wavy surfaces of 3 or 6 cm, create spectacular plays of light. These finishes can also be used on flat parts.
