CAST

MADE IN ITALY

#### **OUR HISTORY**

Our is a very fortunate Region. Here many famous architects and skilled artisans, fine artists and sculptors, famous musicians and composers were born. Everywhere you go you can find the beauty created by the skill and genius of our ancestors. In our city, Venice, now recognized as UNESCO World Heritage Site, you will find the majority of the villas and palaces designed by the famous architect Andrea Palladio. The search for beauty and harmony is our natural endowment. Our history dates back to 1958. Starting from the very beginning, Francesco Castagna, our founder and father, imparted a mark of quality to his kitchens, preferring to use solid wood worked with masterly craftsmanship.

Our understanding of wood, our search for innovative quality materials, our attention to detail and particularly harmonious design are the elements that characterize us. The intention is to design environments in harmony with the lifestyle of those who live there and that express their personality. We select, just like in haute couture, shapes and colours that help people live better in their environment. CASTAGNA CucINE represents the elegance, exclusivity and style of Italian tailoring.

#### **LA NOSTRA STORIA**

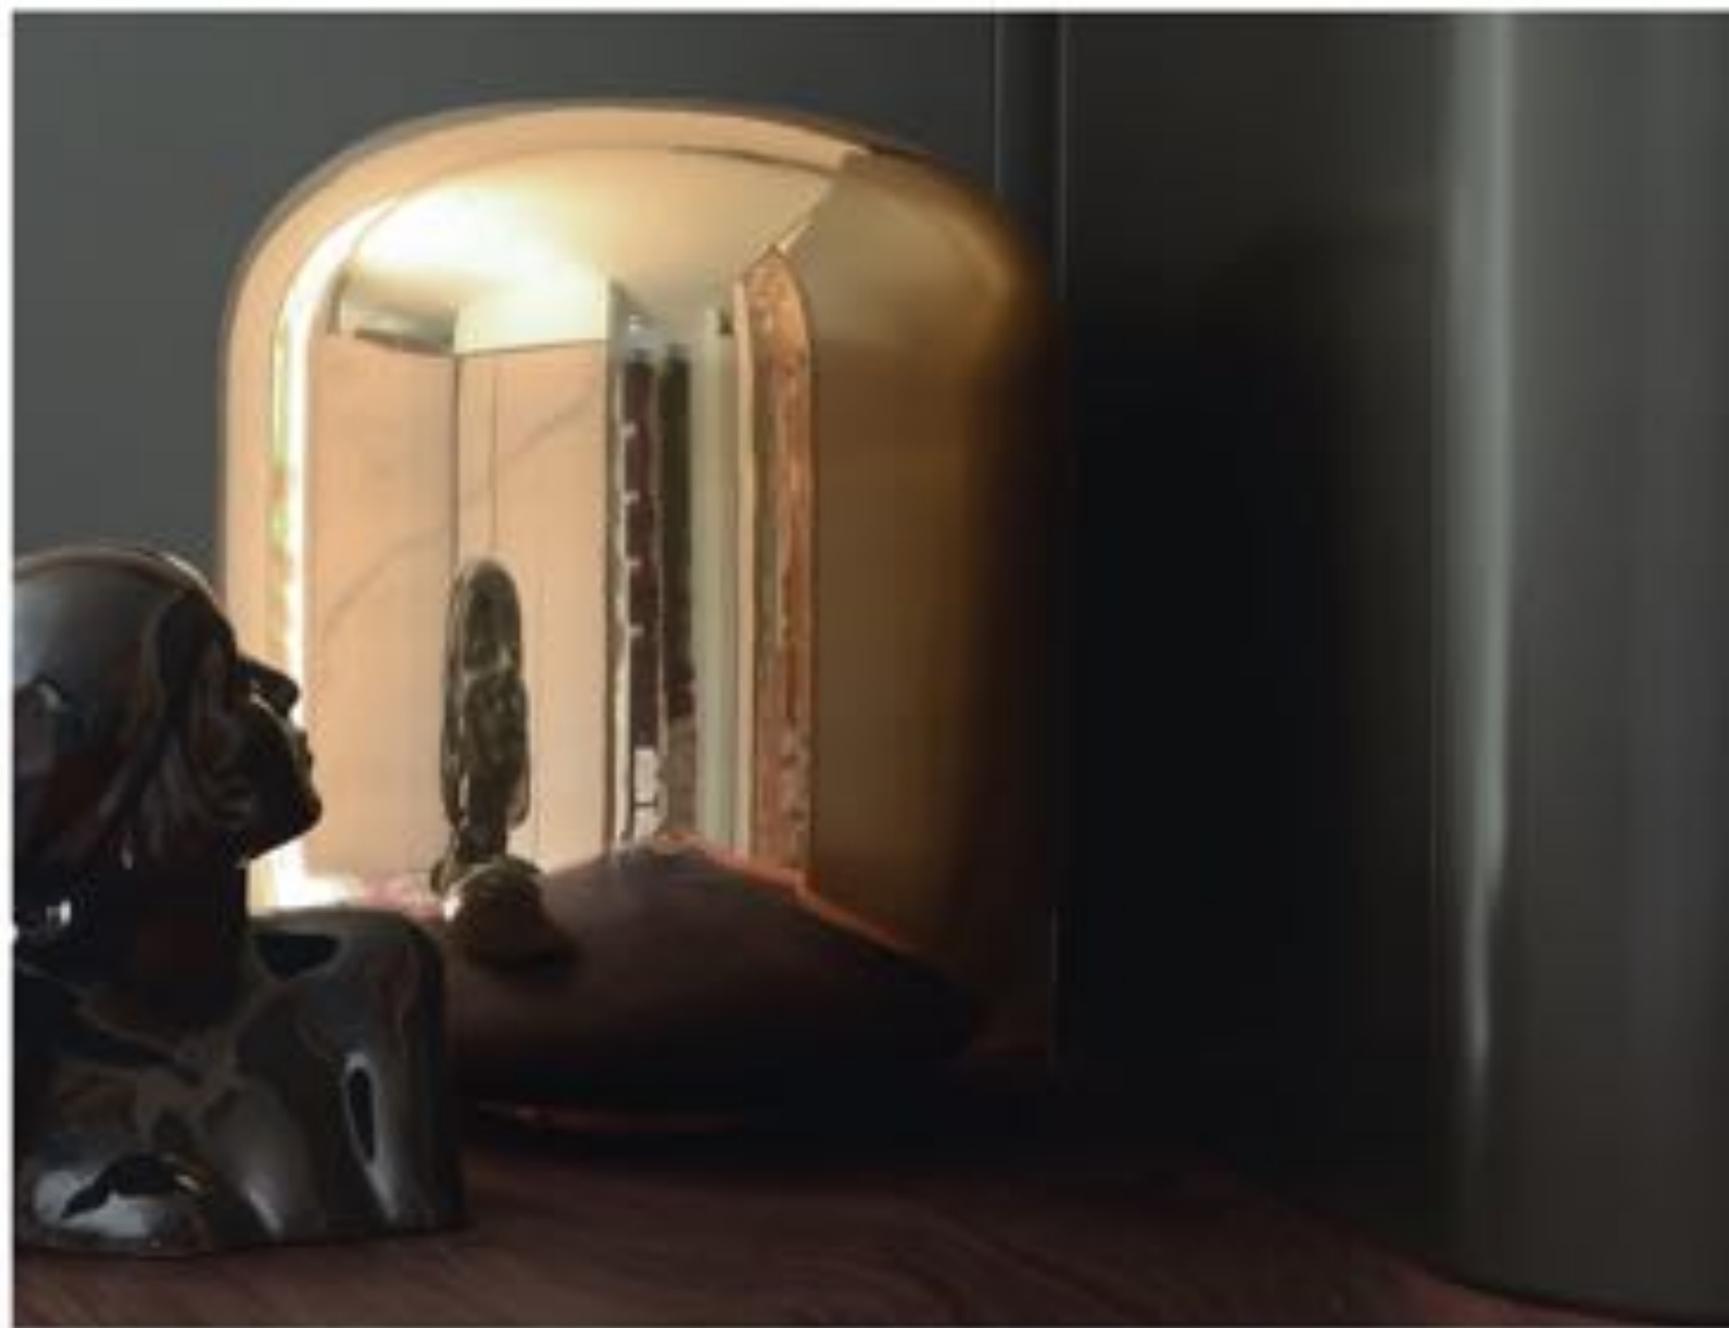

La nostra è una terra fortunata. Qui sono nati celebri architetti e capaci artigiani, raffinati pittori e scultori, insigni musicisti e compositori. In ogni luogo c'è una bellezza creata dall'abilità e dal genio dei nostri Antenati. Nella nostra città, Venezia, si trovano la maggior parte delle ville e dei palazzi progettati dal famoso architetto Andrea Palladio, ora riconosciuti patrimonio dell'umanità Unesco. La ricerca del bello e dell'armonia è una dote naturale.

La nostra storia risale al 1958. Fin da allora nostro padre Francesco ha dato una impronta di qualità alle sue cucine, privilegiando l'uso del legno massello lavorato con sapiente artigianalità. La conoscenza del legno, la ricerca di materiali di qualità innovativi, la cura dei dettagli ed un design particolarmente armonioso sono gli elementi che ci caratterizzano.

Intenzione è di progettare ambienti in armonia con lo stile di vita di chi li abita e che ne esprimono la personalità. Si scelgono, come in una sartoria, forme e colori per far star bene le persone nel proprio ambiente. CASTAGNA CucINE rappresenta l'eleganza, l'esclusività e la sartorialità dello stile italiano.
