WHERE EARTHY TONES MEET LIGHT REFLECTED IN CHROME

Our new collection is a quiet harmony of warm, earthy tones and cool mirrored chrome, where the depth of nature meets the clarity of modern light. From the chestnut richness of Maroon to the whisper-soft blush of Rose, the gentle warmth of Almond, the grounding calm of Chocolate Brown, and the glowing amber of Caramel, the palette flows with serenity and subtle sophistication, creating spaces that feel both rooted and luminous.

Light is the soul of the collection. In Japanese, Hikari means light, and the Hikari lamp series embodies this idea through softly flattened opal glass that diffuses a dawn-like glow, balanced by graceful metal forms that integrate seamlessly into architecture. The Snake Collection brings movement into stillness, where slender metal curves guide the eye and warm conic shades allow illumination to flow like a living line through space. Inspired by 1980s graphic minimalism, the Chameleon Collection explores transformation through clean geometry, with its adjustable square shade allowing light and shadow to reshape the mood with a simple turn.

The story quiets with the Cube Collection, inspired by early Cubism and the poetry of balanced form. Here, candleholders become small architectural sculptures, meditations on harmony and proportion. Adding sculptural counterpoint, the Ori Sculptures, named for the Japanese word meaning “to fold,” capture ceramic clay mid-motion. Their twisted forms shift with every viewpoint as light animates their folds, creating a dialogue between contrast and unity.

Within this collection overview, you will discover our complete range of lighting, furniture, dinnerware, and decorative pieces, all designed to be mixed and matched effortlessly, allowing you to compose your own interpretation of the collection's distinctive style.

Together, these elements form a seamless language of color, light, and form. More than design, this is an invitation to create spaces of warmth, stillness, and quiet wonder where a home becomes a sanctuary, and every room feels like a masterpiece.

REDEFINED DETAILS AND MONUMENTAL SHAPES ROOTED IN THE SCANDINAVIAN SOIL AND NOURISHED BY JAPANESE MINIMALIST AESTHETICS

101 Copenhagen is a Danish design brand founded in 2017. With a vision to honor exquisite quality and craftsmanship, the collection encompasses furniture, lighting and accessories in a timeless, yet modern design. With a true passion for materials and refined textures, organic shapes and colours, 101 Copenhagen presents the epitome of classics and must-have novelties for Scandinavian and international interior connoisseurs alike. The design of 101 Copenhagen is firmly rooted in the Scandinavian soil and nourished by Japanese minima-

list aesthetics. Sharing an emphasis on quality materials, techniques and traditions, the meeting between the North and the East is notable in the holistic collections of 101 Copenhagen. The design approach is dynamic and characterised by freedom of expression - creating unique and timeless pieces without compromising on playfulness and individuality. An attention to detail and a shared sense of aesthetics is what drives the two main designers of 101 Copenhagen, Tommy Hyldahl and Kristian Sofus Hansen. Merging their backgrounds and

experiences from the fashion industry, the Royal Danish Academy of Fine Arts and travels in Japan respectively, a narrative of minimalist, sculptural and conceptual design is evident throughout the collections. Translating and transforming the simplistic inspiration from Japan in a Scandinavian context is all about honouring quality, heritage and materiality while never seizing to compromise on form and function. 101 Copenhagen is a curated selection of tactile, bold objects standing out in a crowd and gathers as a whole.

HANDCRAFTED MANUFACTURING PROCESS IS A METICULOUSLY CRAFTED JOURNEY THAT LENDS EACH PIECE OF FURNITURE AND VASE ITS OWN UNIQUE PERSONALITY.

Our handcrafted manufacturing process is a meticulously crafted journey that lends each piece of furniture and vase its own unique personality. Unlike mass-produced items, where uniformity is the rule, our creations embrace subtle variations and an organic texture that truly set them apart. This not only makes each piece one-of-a-kind but also resonates with discerning customers who appreciate the value of craftsmanship, individuality, and artistic expression in their living spaces. The cornerstone of our products lies in the 'organic roughness' a quality that truly distinguishes our furniture and vases. This natural imperfection arises from slight variations during handcrafting, which is not a drawback, but rather a signature trait that signifies authenticity and artistic

integrity. From inception to completion, our skilled artisans are deeply involved in every step of the process. Each piece undergoes multiple rounds of hand-painting, sanding, and shaping, making it a canvas of intricate artistry rather than just another piece of furniture or decor. This meticulous attention to detail results in characteristic colour schemes and designs that are uniquely our own.

For those who seek more than just utility in their purchases, who see their surroundings as an extension of their individuality, our pieces offer that rare combination of form and function where each piece is not just designed but also 'sculpted' to life. These are not mere items of utility but tangible pieces of art, imbued with the touch of the human hand.
