NATIVE DINNERWARE COLLECTION

Elevate your dining experience with the Native Dinnerware Collection, where timeless elegance meets modern functionality. Inspired by the refined aesthetics of Japanese design, each piece in the collection embraces the beauty of imperfection, crafted with artisan techniques that bring a distinctly handmade appearance to every item.

Hand-painted in a natural Birch hue with subtle variations, Native embodies an inviting warmth perfect for enhancing the ambiance of a private home, as well as hotels or restaurant settings. The collection includes a versatile array of plates, bowls, trays, and uniquely sculptural coffee and espresso cups - each featuring a distinctive handle and designed to retain warmth, making them ideal for curated breakfast spreads or elevated coffee breaks. The teapot, with its finely crafted wooden handle, further enriches the dining experience, offering guests a sense of intimacy and connection with the crafted tableware.

Native's organic, curvy edges and soft, rounded forms bring a cohesive, artisan touch to tablescapes that complement both casual and formal dining. Available in multiple sizes, each item within the collection accommodates a range of culinary presentations, from the simplest brunch settings to the most sophisticated evening services. Native is also crafted for modern demands; made from highly durable stoneware, each piece is certified microwave and dishwasher safe, making it as practical as it is visually appealing for both private homes and high-traffic environments.

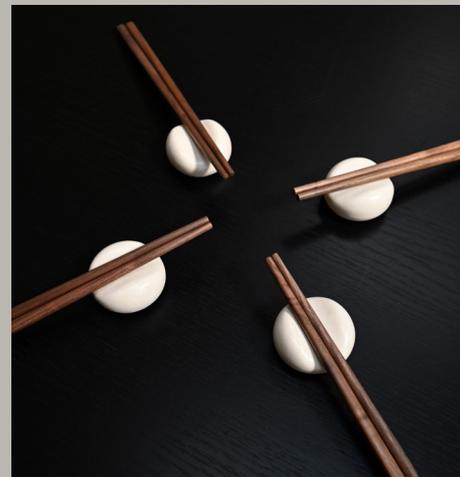

Crafted through a meticulous process, the ceramic material is placed in a mould for 2 hours before the first burning in oven at 850 degrees. Each product is afterwards washed and checked for defects before applying the first semi matte glaze. After a drying period, a second glaze is applied by hand to add a beige texture on top of the white base colour. Finally, each piece is burnt in oven for a second time at around 1230-1240 degrees. Subtle beige textures over a white base bring depth and character to each piece, ensuring that no two are alike, creating a unique dining experience that guests will remember.

Balancing beauty and practicality, the Native Collection offers a complete set of dinnerware essentials that complement culinary creations with a touch of sophistication. Each piece is designed to enhance the dining experience, making every meal a special occasion. Indulge in the art of dining with Native, where every piece stands out with a unique, handcrafted character.

CREATE a stunning and inviting table with our exquisite dinnerware collection, featuring everything from elegant teapot to versatile trays, coffee cups, espresso cups, and a variety of plates and bowls. This collection is designed for effortless mixing and matching, ensuring every piece complements the next, whether you're serving up seasonal vegetables on our spacious oval tray or enjoying a peaceful tea break with our beautifully crafted teapot.

The gentle, timeless color of birch woven throughout each piece creates a cohesive, calming aesthetic that pairs beautifully with a natural linen cloth or napkins, adding an organic elegance to your table. For a finishing touch, our Kogei cutlery completes the scene, elevating your table setting with a minimalist and refined edge.

PASTA PLATE

In the heart of the Native dinnerware collection, the pasta plate stands as a true emblem of artistry and tradition, inspired by the Japanese philosophy of Wabi-Sabi, which finds beauty in the imperfect and honors the authenticity of the moment. Here, craftsmanship is not just a method but a story a tactile journey where the skilled hands of artisans embrace organic forms and raw textures, letting each piece tell its own unique tale.

Imagine savoring a dish that goes beyond taste - it's an experience of connection. The pasta plate is a canvas that brings together ingredients rooted in the earth: Sun-ripened tomatoes from local fields, fragrant herbs gathered with care, and pasta sculpted by the rhythm of time honored tradition. This plate doesn't just serve a meal; it celebrates the entire journey from soil to table, honoring the farmers, foragers, and cooks whose labor and love give life to every bite.

With the Native Pasta Plate, your table becomes a place of storytelling and celebration. It invites you to see the imperfect glaze, the hand-pressed ridges, and know that they are not flaws but marks of genuine craftsmanship. Let this plate transform your dining experience, reminding you that food is more than sustenance - it is a bridge to our past, a celebration of nature, and an invitation to embrace the beauty in the unrefined and the unique moments shared around the table.

REDEFINED DETAILS AND MONUMENTAL SHAPES ROOTED IN THE SCANDINAVIAN SOIL AND NOURISHED BY JAPANESE MINIMALIST AESTHETICS

101 Copenhagen is a Danish design brand founded in 2017. With a vision to honor exquisite quality and craftsmanship, the collection encompasses furniture, lighting and accessories in a timeless, yet modern design. With a true passion for materials and refined textures, organic shapes and colours, 101 Copenhagen presents the epitome of classics and must-have novelties for Scandinavian and international interior connoisseurs alike. The design of 101 Copenhagen is firmly rooted in the Scandinavian soil and nourished by Japanese minimalist aesthetics. Sharing an emphasis on quality materials, techniques and traditions, the meeting between the North and the East is notable in the holistic collections of 101 Copenhagen. The design approach is dynamic and characterised by freedom of expression

- creating unique and timeless pieces without compromising on playfulness and individuality. An attention to detail and a shared sense of aesthetics is what drives the two main designers of 101 Copenhagen, Tommy Hyldahl and Kristian Sofus Hansen. Merging their backgrounds and experiences from the fashion industry, the Royal Danish Academy of Fine Arts and travels in Japan respectively, a narrative of minimalist, sculptural and conceptual design is evident throughout the collections. Translating and transforming the simplistic inspiration from Japan in a Scandinavian context is all about honouring quality, heritage and materiality while never seizing to compromise on form and function. 101 Copenhagen is a curated selection of tactile, bold objects standing out in a crowd and gathers as a whole.
