THE HANDCRAFTED MANUFACTURING PROCESS IS AN ARTFUL JOURNEY OF DEDICATION AND PRECISION, INFUSING EACH PIECE OF LIGHT WITH ITS OWN UNIQUE SOUL AND STORY.

Light is more than mere illumination it shapes our spaces, sets our moods, and tells a story. Our handcrafted lighting is a testament to this belief, where each piece is not just created but brought to life with care, passion, and artistry. Unlike mass-produced fixtures that prioritize uniformity, our lights embrace imperfection subtle variations, organic textures, and the warmth of the human touch. Each creation carries a soul, a distinctive personality that transforms not just rooms but experiences. At the heart of our craft lies organic roughness a signature trait that celebrates authenticity. The natural textures and intricate details are not flaws but marks of true craftsmanship, whispers of the artisan's hands at work. Every light tells a unique story, sculpted through a journey of skill and dedication. Each piece embarks on a meticulous journey of creation, beginning with precision cutting and welding, where raw materials take form. It then undergoes flawless polishing, re-

fining every edge to perfection, followed by custom colouring and finishing touches, infusing depth and character into the design. Every detail is meticulously examined through rigorous inspection, ensuring unmatched quality before moving to assembly and wiring, where light is finally brought to life. The process concludes with perfect packaging, carefully preparing each masterpiece for its new home. These are not just steps in a process they are rituals of creation. With every stroke of paint, every delicate sanding, and every careful touch, our artisans shape more than just lighting; they craft an experience, an atmosphere, an emotion. For those who seek more than function for those who see light as an extension of art our handmade lamps offer a rare fusion of form, warmth, and soul. These are not mere objects of utility but sculptures of light, radiating beauty, personality, and the unmistakable touch of human hands.

AD FLOOR LAMP A bold statement of artistry and design, the AD Floor Lamp embodies the raw elegance of the Brutalist movement, reinterpreted with a celestial touch. Its geometric, sculptural form captures the mystery of planetary orbits and the fleeting beauty of eclipses, transforming light into a mesmerizing experience. The oxidized, textured surface reminiscent of weathered concrete pays homage to its architectural roots, adding depth and character. With a commanding yet harmonious presence, it seamlessly merges solidity with lightness, where the play of illumination reveals ever-shifting perceptions: from certain angles, it appears paper-thin; from others, it holds a profound, monolithic strength. Crafted from thin aluminium plates, the structured form encloses the light source, diffusing a soft, ambient glow that enhances any space. More than just a lighting fixture, the AD Floor Lamp is an exploration of contrasts weight and weightlessness, structure and fluidity, function, and emotion. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

BULL FLOOR & TABLE LAMP

A timeless tribute to Danish Modernism, the Bull Lamp captures the bold elegance of mid-century design while embracing the artistry of natural materials. Inspired by the expressive use of animal imagery in Danish design from the 1940s to 1960s, this striking lamp takes its name from its distinctive, bull-like opal glass shades radiating a soft, inviting glow that transforms any space. Its foundation is one of strength and sophistication: an unpolished grey marble base anchors the design, while an oxidized aluminium arm, wrapped in hand-spun cognac leather, adds warmth and tactile luxury. The upper aluminium element creates a striking contrast to the ethereal, translucent glass, celebrating the harmony between rawness and refinement. More than just a lamp, the Bull is a sculptural masterpiece an embodiment of craftsmanship, heritage, and modern artistry. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

STINGRAY TABLE & FLOOR LAMP Inspired by the graceful movement of the stingray, the Stingray Light Series is a harmonious fusion of soft curves and striking lines. The floating elegance of the Stingray lampshade takes centre stage, its sculptural form creating a dynamic interplay of light and shadow. As the perspective shifts, the lampshade subtly conceals and reveals the light source, offering a mesmerizing and ever-changing illumination experience. This exquisite design is showcased in a breathtaking chandelier, as well as a sophisticated table and floor lamp. The latter is distinguished by its three-legged structure, anchored to a half-circular base that brings rhythmic balance and effortless simplicity to the composition. Suspended from an adjustable arm, the Stingray lampshade hovers in perfect equilibrium, counterpoised by a delicate sphere an artistic expression of contrast and weightlessness. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

DAWN & DUSK LAMP Where light becomes sculpture more than just illumination, the Dusk Table Lamp and Dawn Floor Lamp are artistic expressions, evoking celestial wonders from eclipses to planetary orbits and the bold geometry of Brutalist architecture. Their sculptural composition plays with contrasts of light and shadow, as layered, circular shades orchestrate a rhythmic dance of exposure, casting an intimate, atmospheric glow. At the foundation of this poetic interplay stands a raw, oxidized aluminium base square, grounded, and industrial its solid presence harmonizing with the richly textured, almost concrete-like surface of the rounded shades. BOW WALL & FLOOR LAMP

Drawing inspiration from the elegant shape of a bow, the Bow lamps artfully transform LED lights into striking sculptural pieces. Shaped like the string of a classic bow, the luminous acrylic tube lends a gentle and artistic touch to the lamp. REDEFINED DETAILS AND MONUMENTAL SHAPES ROOTED IN THE SCANDINAVIAN SOIL AND NOURISHED BY JAPANESE MINIMALIST AESTHETICS.

101 COPENHAGEN is a Danish design brand founded in 2017. With a vision to honor exquisite quality and craftsmanship, the collection encompasses furniture, lighting and accessories in a timeless, yet modern design. With a true passion for materials and refined textures, organic shapes and colours, 101 Copenhagen presents the epitome of classics and must-have novelties for Scandinavian and international interior connoisseurs alike. The design of 101 Copenhagen is firmly rooted in the Scandinavian soil and nourished by Japanese minimalist aesthetics. Sharing an emphasis on quality materials, techniques and traditions, the meeting between the North and the East is notable in the holistic collections of 101 Copenhagen. The design approach is dynamic and characterised by freedom

of expression - creating unique and timeless pieces without compromising on playfulness and individuality. An attention to detail and a shared sense of aesthetics is what drives the two main designers of 101 Copenhagen, Tommy Hyldahl and Kristian Sofus Hansen. Merging their backgrounds and experiences from the fashion industry, the Royal Danish Academy of Fine Arts and travels in Japan respectively, a narrative of minimalist, sculptural and conceptual design is evident throughout the collections. Translating and transforming the simplistic inspiration from Japan in a Scandinavian context is all about honouring quality, heritage and materiality while never seizing to compromise on form and function. 101 Copenhagen is a curated selection of tactile, bold objects standing out in a crowd and gathers as a whole.
