

Belloni

Exclusive furniture since 1898

Barlassina, Courtyard of Don Achille: entrance to the first joiner's shop Belloni

In 1898 “ Magister” Angelo Belloni established the first family artisanal shop, to convey his passion and knowledge about arts as painting, ornamental drawing and sculpture, and taught to generations of skillful craftsmen, ebanists and carvers.

Since 1960 Belloni has developed its international market, becoming early a well-know and esteemed company, and now its brand is synonym of high quality.

Belloni production is extremely eclectic. The high value of classical production is undeniable. This production boats pieces of different styles :Luis XV, Luis XVI, Empire, Baroque, it is manufactured with care to details by choosing precious finishings and woods, making Belloni classical collection extremely modern.

Belloni, moreover, has put on the worldwide market different collections, such as: Gothic, Country, Art Decò revised with modern accents, and the new collection “le Gemme” realized only thanks to the exclusive cooperation with Swarovski Company.

Nowadays Belloni Company is well-know not only for its furniture, but also for projects of interior , external design and decoration in private and public field.

INLAY

Antique handicraft technique allows the realization of wonderful pictures in wood veneers, thanks to the experience and dexterity of selected inlayers.

This technique consists in cutting small pieces from various kind of veneer in right size and in inserting them, piece by piece, according to their color, to a surface in order to create an inlay.

To give a natural burnished shade the inlayers dip the small veneer pieces into hot sand.

GOLD

Precious gold finishing on wood.
Gold leaves applied on wood by traditional hand-made technique. This technique allows to realize a lot of gold shades from shiny to antique gold using different kinds of patina.

CARVING

Traditional working technique to realize wood sculpture thanks to dexterity of skillful carvers.

Exquisite handcrafted pieces thought and made in Italy, still entirely manufactured by hand, thanks to carefully selected craftsmen, inlayers and carvers
