customize

Each piece could be transformed into an unique piece.
The technique to set the crystals allows plenty of solutions:
logo in different sizes and of different colours,
enrichment of carvings,
making some parts more elegant by line of crystals.
The crystals could be set on any kind of wood: lacquered, polished, gild, on client's request.
The pictures of this catalogue are just examples.
It is possible to decorate special pieces, customized pieces, or set crystals on other Belloni's pieces of furniture.
