Subliminal, the deepest level of desire.

There are languages that go beyond words, as well as affecting us deeply expressions, going beyond the awareness and rationality. Mastery of form and comfort, perfect colour harmony and a wise selection of materials give the product that vibration that inexplicably hits us and catch us, attracts us and makes us fall in love.

This vibration is Subliminal.

The eclectic, contemporary style that underlines the collection is the result of careful analysis of international trends but with the added value of authentic Made in Italy.

Each product is studied in detail and carried out exclusively by hand by the ancient arts and making use of advanced technologies, giving uniqueness and value to each element.

Subliminal lifestyle extends to the entire residential sector, contract and marine, addressing a demanding clientele who want to decorate and dress their spaces distinguishing itself with elegance and originality.

The philosophy of tailor-made design allows to approach each new commission differently, offering the opportunity to create unique pieces from time to time dedicated to specific technical and stylistic requirements.

The Company's history and the great experience gained at international level allow the realization of our projects around the world.
