GENERAL INFORMATION

CUSHION FILLINGS

When purchasing your Duresta furniture, it's incredibly important to choose the right type of filling for your seats, backs, and scatter cushions to ensure optimal comfort for you. The filling you choose for your seat and cushions can make all the difference to how much you enjoy using it. Below is a guide to help inform your choice.

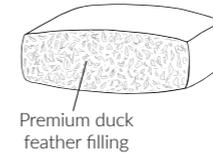

FIBRE:

- Synthetic material
- Plump appearance
- Deep, soft comfort
- Non-allergenic
- Must be plumped up regularly

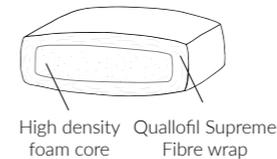

FEATHER:

- A natural filling that offers a "sinking in" feeling
- Soft, relaxed solution
- Daily plumping is required to retain shape
- Becomes softer with use

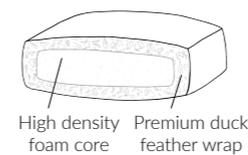

SUPAWRAP:

- Foam core with fibre wrap
- Resilient
- Non-allergenic
- Requires little attention to retain appearance
- Provides the support of foam and the softness of fibre

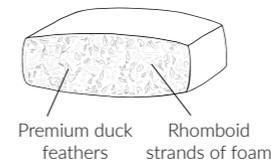

FEATHERLUXE:

- Foam centre wrapped in feather
- Produces the casual characteristic of pure feather
- Retains performance and durability of its foam components
- Reduced maintenance when compared to feather or fibre cushion
- Minimal plumping is required to maintain appearance

DURALUXE:

- Channels of rhomboid strands of foam, together with duck feathers
- Aesthetic and comfort of a fibre or feather cushion, whilst retaining durability
- Regular shake and turning of the cushion will help retain definition
- Exclusive to Duresta

LEATHER FURNITURE

There is much to consider when choosing leather furniture, as there are a great variety of qualities and finishes available. At Duresta, we only use the finest quality leather, sourced from around the world and upholstered to the highest standards. We endeavour to retain the natural beauty and integrity of good quality materials. Our hides are completely natural. Wrinkles, scars, scratches and bites, together with the varied and interesting textures and colour effects are what reveal the full character and beauty of the material. It is important to understand that these characteristics will be present. This natural hallmark distinguishes top grain aniline and semi-aniline leather from lower grade leathers.
