LEATHER FURNITURE

There is much to consider when choosing leather furniture, as there are a great variety of qualities and finishes available. At Duresta, we only use the finest quality leather, sourced from around the world and upholstered to the highest standards. We endeavour to retain the natural beauty and integrity of good quality materials. Our hides are completely natural. Wrinkles, scars, scratches and bites, together with the varied and interesting textures and colour effects are what reveal the full character and beauty of the material. It is important to understand that these characteristics will be present. This natural hallmark distinguishes top grain aniline and semi-aniline leather from lower grade leathers.
