PROJECTS

I proudly represent the fourth generation of a family who has enthusiastically devoted her life to interior decoration. Since 1925, when the first furniture products left the workshop of Pietro Turri , they were immediately recognised for their superior quality. Three words constantly express the Turri philosophy, now as always: original, authentic, unique.

These are the values that permeate all our products: from individual pieces to complete interior decoration projects. We are driven by our love of and respect for a classical sense of tradition that requires uncompromising quality standards, even when interpretations are modern and innovative. Based on these premises, the Turri style is a way of thinking about luxury in interior decoration that has built us an international reputation for Italian made products.
