Upholstered Items

Leathers used on our items are all natural leathers. Any imperfection and/or colour change from leather to leather or from batch to batch are not to be considered as a fault since they represent the typical characteristic of the leather itself. The natural variations of colors stimulated by artificial of natural lights, the minimal dimensional variations caused by uncommon levels of humidity or dryness, and in general other natural features of the upholstery coverings, do not have to be considered defects. For leathers, all the natural marks, wrinkles, different levels of gleam and shade, spots and general imperfections, folds due to the natural expansion or movement during use, do not have to be considered defects but elements which featured a natural product and its authenticity. The features of some types of fabrics are related to their composition or way of production and do not have to be considered defects.

In fabrics and leathers, each batch of production can have minimal variations of tones, in comparison both to the samples sets and to items which have been produced in different periods. A proper use of the products and a proper maintenance of upholsteries, allow to preserve their quality in time. The upholstered parts, particularly the ones with covering in feather, are more inclined to folds or crumples, due to common use.

Finishing

Wooden details, available in the following finishes: Canaletto walnut and Ebony makassar. Possible changes in the colour or eventual imperfections are due to the particular natural wood and for this reason have to be considered an additional value and a guarantee of the product.

Wooden structure lacquered with monochromatic finishing. Possible changes in the colour or eventual imperfections are due to the hand decorations and for this reason are to be considered a value and a guarantee of the product.

Remarks

All finishes, woods, fabrics and leathers in the photos of this catalogue are provided just as an indication of the colours. The furniture is hand-decorated and leather and wood are natural materials. For this reason, possible differences in the colours between the photos and the produced furniture must be considered acceptable. VISMARA reserves the right to make all the changes considered necessary to improve the products without any previous notice.
