

TRIBU

THE ART OF LEISURE

Living the good life outside with family and friends, is the very core of our family brand. We feel privileged continuing the heritage of our father Lode and grandfather Henri, who laid the foundations of a shifting lifestyle towards a luxury outdoor living experience.

It is the life we love to live: stepping outside into the garden, taking moments to relax and reconnect, experiencing the beauty and strength of nature.

We are thrilled to create outdoor spaces that bring you the same sense of peace - with timeless designs that truly feel of nature, where every moment spent feels like a holiday.

Live it, love it, share it.

Have a wonderful outdoor year.

The hanging and standing lamps, designed by Belgian designer Ilia Eckardt, merge traditional techniques with high-performance materials and modern technology. Ilia grew up immersed in the Belgian fashion scene, his mother working for Belgian fashion designers like Raf Simons and Dries Van Noten. Fascinated by their world, he designed his own outdoor lighting collection which he composed as a family. Meet the handsome Monsieur Lebonnet, the graceful Madame Latoque, the chic Madame Cachet and their nephew Monsieur Ellipse. The lights give a warm glow and cast beautiful shadows for long summer nights.

The Suro Banquette truly enhances the combination of two materials: the elegant rigor of teak wood or powder-coated aluminium and the flexibility of the braided rope weaving. Both materials elegantly blend into an exceptional design. The wood and aluminium both affirm the structure of the seat. The fiber backrest, as if hanging from the seat, forms an embracing cocoon-like flower petal which provides unique comfort thanks to its roundness.

The airy design of the Mood collection and its warm combination of teak and handwoven backs will immediately create an intimate atmosphere on your patio. The rounded design of the durable teak gives the sofa a warm and friendly tone. The weave in Tricord® has a very soft touch, but can nevertheless defy all weather conditions. Tribù has developed a range of natural colours that fit in with any type of outdoor environment. The comfortable outdoor cushions can be left out in the rain, thanks to the ventilating, water-repellent filling. The back cushions are available in various styles to match every taste.

TOSCA

MONICA ARMANI

P. 118-119, 120-121, 216-217

The Tosca outdoor sofa is simultaneously warm and inviting, stylish and intriguing. It was the first time Tribù called upon a female designer to draw an outdoor furniture piece and that is evident in the design. Rounded forms, tapered legs and an elegant seating shell in powder-coated stainless steel, upholstered with extra-wide braiding. The material for the braiding is genuinely innovative : foam mousse is encased in a seamless sheath of knitted textile and polyolefine which makes the material weather-resistant, but also surprisingly soft to the touch. The seating comfort is especially pleasant, thanks to the comfortable outdoor cushions.

Slender, teak platforms support comfortable outdoor cushions without any visible back or arm structure. Tribù uses only the very best plantation wood from East-Java. Every log is handpicked during the cutting process of the tree. The cushions are supported by brackets in stainless steel 304L and can be left outside, even in the rain. The ventilating filling is covered with a waterproof, laminated polypropylene cover which is water resistant. All stitches have an extra inside cover to prevent water from penetrating. The simple, modular system allows for endless compositions from a small meridienne sofa to a large corner sofa with side tables.

The modular Nodi sofa has a strong personality, yet it sits easily in an outdoor space without dominating it. The extra-soft cushion filling makes Nodi one of the most comfortable outdoor sofas, as well as one of the most flexible. With three seating elements and four seat depths you can create your own personal sofa.

The Vis à Vis collection gives wooden outdoor furniture a new dimension. Teak is designer Cazzaniga's favourite outdoor material. It is natural, soft to touch and extremely durable. While designing, he thought of a place where people could connect in total comfort, outside. This supplementary added bench breathes the basic chic and versatility of the Vis à Vis collection. It is a casual alternative for dining chairs but serves also perfectly as a stand-alone element.

Refined proportions and a minimalist approach to materiality lend a casual lightness to the collection. The slim profile of the arm is angled slightly inward in a welcoming gesture. The open weave in Canax®, a combination of PVC and natural hemp, crosses in vertical and horizontal lines, providing shape and structure to the seat and back.
