bubbles

Bubbles è un invito a liberare l'immaginazione e a sognare ad occhi aperti. Le bolle luminose conferiscono agli ambienti contract una dimensione onirica, trasformando gli spazi in scenari incantati che affascinano i sensi.

STUDIO IN PROJECT

Bubbles is an invitation to free the imagination and to daydream. The luminous bubbles give contract settings a dreamlike dimension, transforming spaces into enchanted scenarios that fascinates the senses.

trama

Ispirato dall'intricato intreccio dei tessuti, Trama combina la trasparenza e la purezza del vetro con la struttura sofisticata dei tubi dritti. Ogni elemento, meticolosamente lavorato, richiama la delicatezza dei fili intrecciati, creando un gioco di luci e ombre che danza nello spazio.

STUDIO IN PROJECT

Inspired by the intricate weaving of textiles, Trama combines the transparency and purity of glass with the sophisticated structure of straight tubes. Each meticulously crafted element recalls the delicacy of woven threads, creating a play of light and shadow that dances through space.

trama

Studio in Project

Particolari - Details

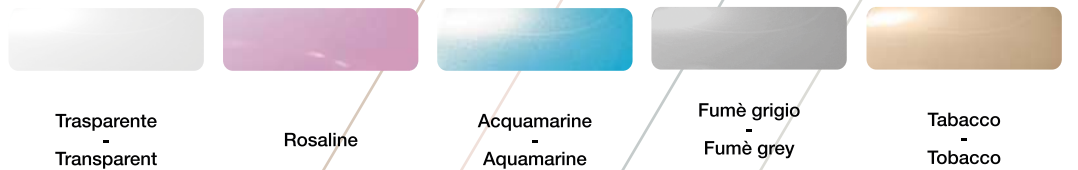

Trama è una collezione composta da elementi singoli in differenti lunghezze ma che affiancati possono strutturare progetti ad-hoc anche di estese dimensioni. Ricreano nell'aria una trama luminosa personalizzabile. Gli elementi di Trama sono in borosilicato trasparente o decorato e all'estremità sono inserite le boccole in alluminio tornito e le cover in metallo stampato. L'elemento luminoso è un Neonflex 360° ed illumina il tubo in borosilicato per tutta la sua lunghezza. Trama è già disponibile nelle misure indicate nei disegni. Per qualsiasi richiesta o differente versione non esitate a contattarci.

Trama is a collection made up of single elements in different lengths but which, when placed side by side, can create ad hoc projects even of large sizes. They recreate a customizable light pattern in the air. Trama's elements are made of transparent or colored borosilicate glass with turned aluminum bushings and molded metal covers at the ends. The light source is a 360° Neonflex, that lights up the borosilicate tube along its whole length. Trama is already available in the sizes shown in the drawings. Do not hesitate to contact us for any request or different version.

The background is a dark blue field filled with a complex, abstract pattern of lighter blue lines and rectangles. The pattern consists of several vertical and horizontal lines of varying thicknesses, some of which intersect to form rectangular blocks. These blocks are arranged in a way that suggests a sense of depth and movement, with some lines appearing to recede into the distance while others come forward. The overall effect is a dynamic, architectural composition that evokes the structure of a modern building or a network of connections.

linea

Una linea continua con direzioni ambivalenti, un punto in movimento senza alcun limite o confine di composizione. L'orizzonte inizia dove finisce la brillantezza del vetro.

MICHELE LOSITO

A continuous line with ambivalent directions, a moving point without any limit or boundary of composition. The horizon begins where the brilliance of the glass ends.

illusione

Alberto Ghirardello

Particolari - Details

Struttura in metallo realizzata su disegno.
Mezza sfera in vetro soffiato con effetto bolle sabbiato internamente, made in Veneto. La base dell'applique è in cromo specchiato, per creare illusione ottica: la mezza sfera in vetro riflettendosi crea immagine di sfera intera. Per qualsiasi richiesta o differente versione non esitate a contattarci

–

Metal structure made on drawing.
Half blown glass sphere with bubble effect internally sandblasted, made in Veneto. The base of the wall lamp is in mirrored chrome, in order to create an optical illusion: the glass half sphere reflects itself and creates the image of a whole sphere. Do not hesitate to contact us for any request or different version

astract

Astract nasce con la fusione di due elementi, con uno straordinario aspetto enigmatico: l'alluminio solido e materico si contrappone alla delicatezza del vetro borosilicato per creare scenografie altamente decorative e personalizzabili.

STUDIO IN PROJECT

Astract was born from the fusion of two elements, with a special enigmatic aspect: solid and textured aluminum contrasts with the delicacy of borosilicate glass to create highly decorative and customizable settings.

Particolari - Details

Gocce in vetro di murano soffiate. Gocce è proposta come collezione personalizzabile:

- È possibile richiedere “versione movement”, con sistema Casambi integrato, che consente il movimento delle luci secondo delle scene definite da remoto su smartphone, gestite con applicazione.
 - È possibile richiedere progetto ad hoc, differenti dimensioni e configurazioni.
 - È possibile richiedere progetto sospensione con elementi gocce luminose ed elementi gocce non luminose.
- Esempio: Gocce ellipse. Non esitate a contattarci per un progetto esclusivo che si adatti al meglio ai vostri spazi e soddisfi le vostre esigenze.

Blown Murano glass drops. Gocce is proposed as a customizable collection:

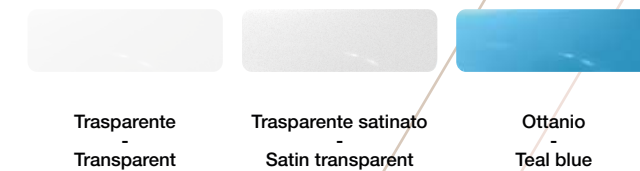

- It is possible to request a “movement version”, with an integrated Casambi system, which allows the movement of the lights according to the scenes defined remotely on a smartphone, managed with the application.
 - It is possible to request ad hoc projects, different sizes and configurations.
 - It is possible to request a suspension project with lighting drop elements and non-lighting drop elements.
- Example: Gocce ellipse. Do not hesitate to contact us for an exclusive project that best suits your spaces and meets your needs.

neva

Un gruppo di lunghi ghiaccioli sospesi al tetto di una casa attraversati dalla bassa luce solare che infrange il ghiaccio creando un gioco cristallino di luce. Ecco fissato questo momento fugace per trasferirlo nello spazio di un'abitazione. Una sottile montatura in metallo crea il riferimento alla natura senza distrarre troppo dal gioco di luce dei vetri.

DANIEL BECKER

A group of long icicles suspended from the roof of a house crossed by low sunlight that shatters the ice, creating a crystal-clear pattern of light. This fleeting moment is frozen in time and transferred into the space of a home. A thin metal frame creates a reference to nature without distracting too much from the lighting effect created by the glass.

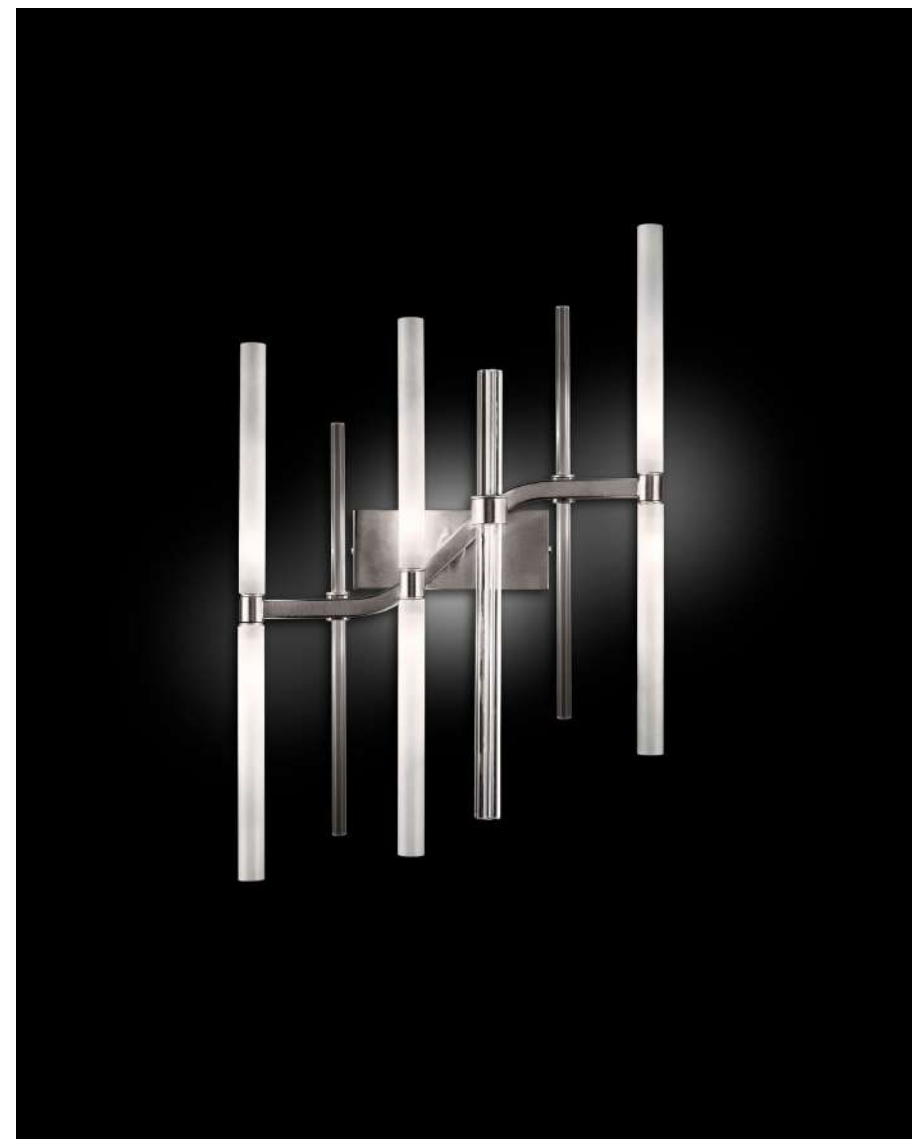

DANIEL BECKER

cryrock

Michele Losito

Particolari - Details

Cryrock è una collezione brevettata. Il sasso in cristallo è made in Toscana, viene lavorato al fine di eliminare gli spigoli e arrotondarne le forme. Non subisce alcun lavoro di molatura e ciò consente un risultato unico e non riproducibile in serie. La struttura in metallo è realizzata artigianalmente su nostro disegno con saldature in argento. Il filamento Led illumina ed esalta il cristallo. La sospensione S12 è un esempio: è possibile richiedere differenti configurazioni, forme e numero di elementi. Per qualsiasi richiesta o differente versione non esitate a contattarci.

-

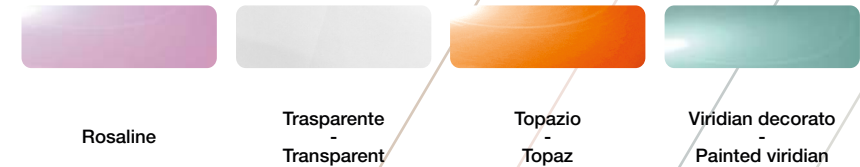

Cryrock is a patented collection. Crystal rock made in Tuscany. The rock is worked in order to smooth the edges off and to round its shape. It does not undergo any grinding work and this allows a unique result that can't be reproduced in series. The metal structure is handcrafted on our drawing with silver welds. The Led filament illuminates and highlights the crystal. The suspension S12 is an example: it's possible to request different configurations, shapes and number of elements. Don't hesitate to contact us for any request or different version.

castel

L'alchimia della luce svela le sfaccettature dell'Architettura e la trasmuta in Design. La collezione si ispira all'architettura di Castel del Monte interpretando in chiave contemporanea un pezzo unico e singolare della tradizione architettonica pugliese. La geometria ottagonale, caratteristica peculiare di ogni lampada, riflette e assorbe le variazioni di luce e colore in una stanza: ogni faccia è sempre diversa dall'altra, e ognuna di esse cristallizza i cromatismi cangianti degli ambienti che lo circondano.

VINCENZO BAFUNNO

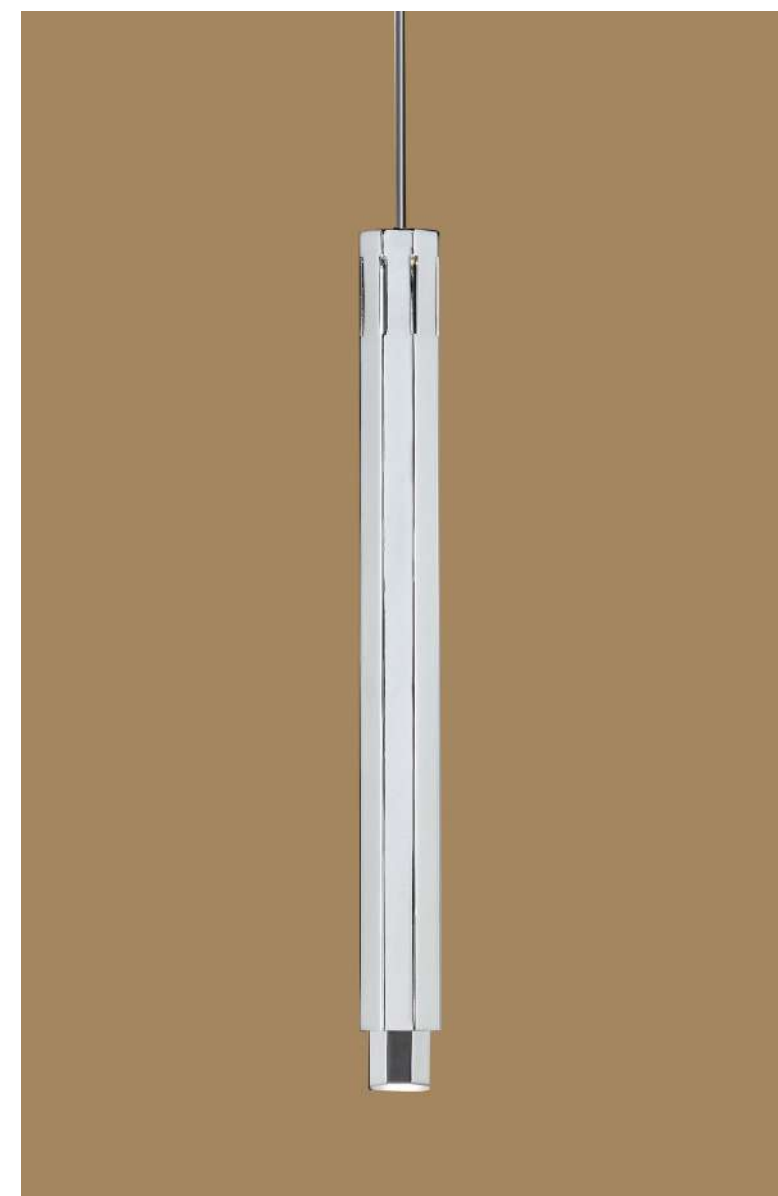

The alchemy of light reveals the facets of Architecture and transposes them into Design. The collection is inspired by the architecture of Castel del Monte, offering a contemporary interpretation of a unique and singular piece of Apulian architectural tradition. The octagonal geometry, which is a particular feature of each lamp, reflects and absorbs the fluctuations of light and colour in a room: every face is always different from the other, and each one crystallizes the iridescent colours of the rooms around it.

nobody

Nobody è un'entità astratta, sostanza senza corpo: una sfera in metallo libera di essere orientata nello spazio. Soltanto un'esile ed eterea struttura la sostiene dal soffitto facendola galleggiare a mezz'aria. Nobody, "Nessuno", è anche un riferimento omerico, un omaggio all'astuzia di Ulisse che riuscì a sfuggire dalla grotta del gigante con un solo occhio Polifemo dicendo di chiamarsi Nessuno: il diffusore dell'apparecchio infatti può essere inteso come un singolo occhio da direzionare a piacere.

ALBERTO GHIRARDELLO

Nobody is an abstract entity, substance without body: a metal sphere free to move through space. Only a slender and ethereal structure supports it from the ceiling, making it float in mid-air. Nobody is also a Homeric reference, a tribute to the cunning of Ulysses who succeeded in escaping from the cave of the one-eyed giant Polyphemus by telling him his name was Nobody: the diffuser of the light fitting can be intended as a single eye to be positioned as desired.

The background is a solid light brown color. It features three vertical bars of varying widths and heights. The leftmost bar is the tallest, the middle bar is shorter, and the rightmost bar is the shortest. Each bar has a solid dark brown top section and a bottom section with a light brown diamond lattice pattern. The word 'gleam' is written in a large, white, lowercase sans-serif font on the left side.

gleam

*Un fascio di luce, un bagliore che attraversa la perfezione del
cristallo riversando lo splendore dei riflessi tutt'intorno.
Seduciente splendore che incanta.*

STUDIO IN PROJECT

*A beam of light, a glimmer that penetrates the perfection
of the crystal, casting the splendour of the reflections all
around. Seductive and enchanting radiance.*

The background features a complex, abstract geometric pattern. It consists of numerous blue lines of varying thicknesses that radiate from several central points, creating a starburst or web-like effect. Interspersed among these lines are several blue circles of different sizes. Some circles are solid, while others are hollow, and they are connected to the lines in various ways, some acting as endpoints and others as part of a larger network. The overall composition is dynamic and suggests themes of connectivity, geometry, and movement.

vector

Figure geometriche che si rincorrono, segmenti di metallo si librano nelle tre dimensioni dello spazio, spigoli, direzioni che assume la quotidianità.

NUNZIA ACQUAVIVA

Geometrical figures that chase each other, metal segments that hover in the three dimensions of space, and the edges formed and directions taken by everyday life.

Euroluce Lampadari non risponde per eventuali danni a persone o cose causati da una non corretta installazione dei propri apparecchi di illuminazione, da un uso di lampadine non conformi e dalla modificazione delle caratteristiche tecnico costruttive.

Il marchio CE è un marchio europeo di garanzia che certifica la qualità del prodotto e la sua rispondenza ai parametri di sicurezza previsti dalle normative CEE.

Euroluce Lampadari può fornire per la quasi totalità dei suoi articoli la certificazione con marchio UL. Questo catalogo è tutelato dalla legge sui diritti d'autore (legge 22/4/1941 n°633 e dalla legge 14/12/1942 n°1485). È vietata ogni riproduzione anche parziale dello stesso.

Euroluce Lampadari is not liable for incidental injuries or damage to people or things due to: incorrect installation of the fixtures, use of not suitable bulbs, modification of the original technical features of the items.

The label CE is a European guaranteed mark. It certifies product quality and its compliance with the safety standards stated by EEC regulations.

Euroluce Lampadari can provide for most of its products the UL certification.

This catalogue is copyrighted and protected by the Italian law (22/4/1941 n°633 and 14/12/1942 n°1485). Any reproduction of this catalogue is strictly forbidden.

LUMEN
Flusso luminoso nominale. L'indicazione si riferisce al valore in assenza di rifrazione, come dichiarato dal produttore del componente.

Nominal luminous flux. It refers to the value without any refraction, as declared by the component manufacturer.
