# Introduction

## Introduzione

**We spend in bed the most intimate and necessary time of our day.**

**It is the place where the body unwinds and the mind slows down, where thoughts grow lighter and the surrounding space becomes essential. A bed is not merely an object: it is a domestic architecture on a personal scale. It shapes the room, defines its rhythm, and determines its balance. It must be welcoming, yet never overwhelming. Solid, yet visually light. Designed to last, conceived to adapt. Beside it, bedside tables are not simple accessories: they are surfaces for what truly matters. An open book, a soft light, a cherished object. They hold the essentials and eliminate the superfluous. Pure lines, balanced proportions, authentic materials. Each element engages in dialogue with the space and with those who inhabit it – without excess, without noise. Function and form meet in a natural equilibrium. Because the night area is a place of rest, but also of presence. It is the first space we see in the morning and the last we pass through at night. A space to be lived in with simplicity, coherence, and measure.**

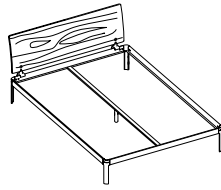

Trascuriamo nel letto il tempo più intimo e necessario della giornata.

È il luogo dove il corpo si distende e la mente rallenta, dove il pensiero si alleggerisce e lo spazio attorno diventa essenziale. Il letto non è solo un oggetto: è un'architettura domestica in scala personale. Disegna la stanza, ne definisce il ritmo, ne determina l'equilibrio. Deve essere accogliente, ma mai ingombrante. Solido, ma visivamente leggero. Progettato per durare, pensato per adattarsi. Accanto, i comodini non sono semplici complementi: sono superfici di appoggio per ciò che conta davvero. Un libro aperto, una luce discreta, un oggetto caro. Custodiscono il necessario, eliminano il superfluo. Linee pure, proporzioni calibrate, materiali autentici. Ogni elemento dialoga con lo spazio e con chi lo abita, senza eccessi, senza rumore. Funzione e forma si incontrano in un equilibrio naturale. Perché la zona notte è il luogo del riposo, ma anche della presenza. È il primo spazio che vediamo al mattino e l'ultimo che attraversiamo la sera. Un ambiente da vivere con semplicità, con coerenza, con misura.

# Clapis

Bluezone 2022

**Clapis is a bed with minimalist aesthetic appeal, featuring a headboard rounded like a stone (a 'clap' in the Friulian language) smoothed by water. It is available in four variations: raised on slender recessed feet, floor-standing, a sommier version, with a headboard, and with a headboard and storage unit, to optimise the space under the bedspring. Designed for the greatest comfort and ergonomics, the sommier and the floor-standing versions with a headboard but without a storage unit are available in seven different heights for the mattress recessed in the bedframe.**

Clapis è un letto dall'estetica essenziale, caratterizzato dalla testiera arrotondata come un sasso (clap, in lingua friulana) levigato dall'acqua. È disponibile in quattro varianti: rialzato su piedini sottili e rientranti o a terra, in versione sommier, con testiera e con testiera e contenitore, per ottimizzare lo spazio sotto la rete. Studiato per la migliore comodità ed ergonomia, nelle versioni sommier e a terra con testiera senza contenitore presenta sette possibili altezze nell'incasso tra rete e materasso.

## Dimora

Cristina Celestino 2024

**The Dimora bed is born from a balance of harmony and character. Two structures, defined by a distinctive composition, “embrace” the bed, creating a true architecture within architecture. A play of oxymorons blends soft rigor with regal presence, resulting in a sophisticated aesthetic and an unparalleled comfort experience. Great attention to detail is also reflected in its functionality: in the fabric version, the cover is fully removable, while in the leather and faux leather versions it is non-removable. The cushions are attached to the frame with a practical bayonet fitting system and can be easily removed for cleaning.**

Il letto Dimora nasce dall'incontro di equilibrio e carattere. Due strutture, definite da una composizione distintiva, “abbracciano” il letto creando una vera e propria architettura nell'architettura. Un gioco di ossimori che fonde morbido rigore e presenza regale, dando vita a un'estetica sofisticata e a un'esperienza di comfort senza pari. La cura per il dettaglio si riflette anche nella funzionalità: nella versione in tessuto il rivestimento è completamente sfoderabile, mentre nelle varianti in pelle e pelle sintetica non è sfoderabile. I cuscini, innestati alla struttura tramite un pratico aggancio a baionetta, sono facilmente rimovibili per agevolare le operazioni di pulizia.

# Legri

Lievore + Altherr Désile Park 2021

**Like a soft horizontal line highlighted by the wall, in the middle of the room the Legri bed appears to hover in the air, evoking a feeling of suspension and lightness. This is achieved with the feet, which are recessed in relation to the bedframe, ensuring stability without being noticed. With a padded back panel, the bedframe has soft, rounded lines for maximum comfort. Night stands, also suspended and curved, can be combined with the bed.**

Come una linea orizzontale tracciata dalla parete al centro della stanza, il letto Legri sembra librarsi in aria, trasmettendo una sensazione di sospensione e leggerezza. Merito dei piedini rientranti rispetto alla struttura, che assicurano stabilità senza farsi notare. La struttura con schienale imbottito ha linee morbide e rotonde, per la massima sensazione di comfort. Sospesi e curvi anche i comodini, che si possono integrare al letto.

# Avenue Night

ruga.perissinotto & Sciuto Architetti 2021/2025

**Avenue is a versatile system that offers unprecedented scope in design. Designed for contemporary living, it can also be used in the sleeping area as a night stand or as a drawer unit. Avenue Night units, available in a wall-hung version or floor-standing with a plinth, have an open compartment that is the distinctive element. It is useful for conveniently opening the drawer and as storage space. Avenue Night can be combined with Avenue Boiserie to create customised back-to-wall compositions.**

Avenue è un sistema trasversale che offre una libertà di progettazione senza precedenti. Pensato per il living contemporaneo si estende anche alla zona notte, dove può essere interpretato come comodino o come cassettiera. Negli elementi di Avenue Night, disponibili sia sospesi sia in appoggio a terra con zoccolino, l'elemento distintivo è il vano aperto, utile sia per aprire comodamente il cassetto sia come spazio di contenimento. Avenue Night si integra con Avenue Boiserie, per creare composizioni retroletto personalizzate.

# Orbit

Bluezone 2022

**Elegant and understated, the Orbit night stand features a rounded shape. As it is a perfectly finished cylinder, it can also be positioned detached from the wall, and even in the middle of a room. The grip recess opening, incorporated into the drawer fronts, maintains its formal simplicity and guarantees functionality. Its structure is in lacquered or stained ash veneer, whereas the top is available in the same finish, or in precious Calacatta or Black Marquinia marble.**

Elegante e discreto, il comodino Orbit è caratterizzato dalla forma circolare. Poiché è un cilindro perfettamente rifinito, può essere usato anche staccato dalla parete, e perfino a centro stanza. La gola di apertura, integrata nei frontali del cassetto, ne mantiene la pulizia formale e garantisce la funzionalità. La scocca è in impiallacciato di frassino laccato o tinto, mentre il top può essere nella stessa finitura, oppure in prezioso marmo Calacatta o Nero Marquinia.
