

**HALLEY**  
DESIGNER FURNITURE

**Design meets Art**

**100%**  
handmade  
in Italy

**We design functional artworks  
to create unique creations, bringing  
exclusive environments to life.**

**Our certified design creations,  
100% handcrafted in Italy, can be  
customized or made to measure.**

Customized & tailor-made pieces.

**Crafted in Italy.**

**Customized & tailor-made.**

**Certified one-of-a-kind pieces.**

## *Design meets Art*

Our project was born from the vision of an Architect who chased his passion for Design: life led the founder to collaborate with a close friend and artist, who brought creativity to Interior Design projects.

The artistic approach applied to these projects greatly influenced the way furniture design was perceived, blending functionality with an artistic touch. The passion for design, enriched by art and Italian craftsmanship.

The first furniture accessories were created on request of designers and friends. The interest sparked by these initial pieces encouraged the development of a series of prototypes, marking the inception of our vision.

## Our passion

We aim to share our passion by supporting our Clients in the **creation** of unique, **certified functional artworks**, handcrafted in Italy.

Our aspiration is to craft **personalized objects**, directly **involving the Client** in the creative process and, if desired, in the key stages of bringing their **one-of-a-kind piece** to life.

**Your vision  
inspires  
our creations!**

## Unique and certified creations

Each creation is much more than just a piece of furniture; it is an **exclusive artisanal masterpiece, certified as a unique piece with an archive number on each object and on a paper certificate that confirms its originality.**

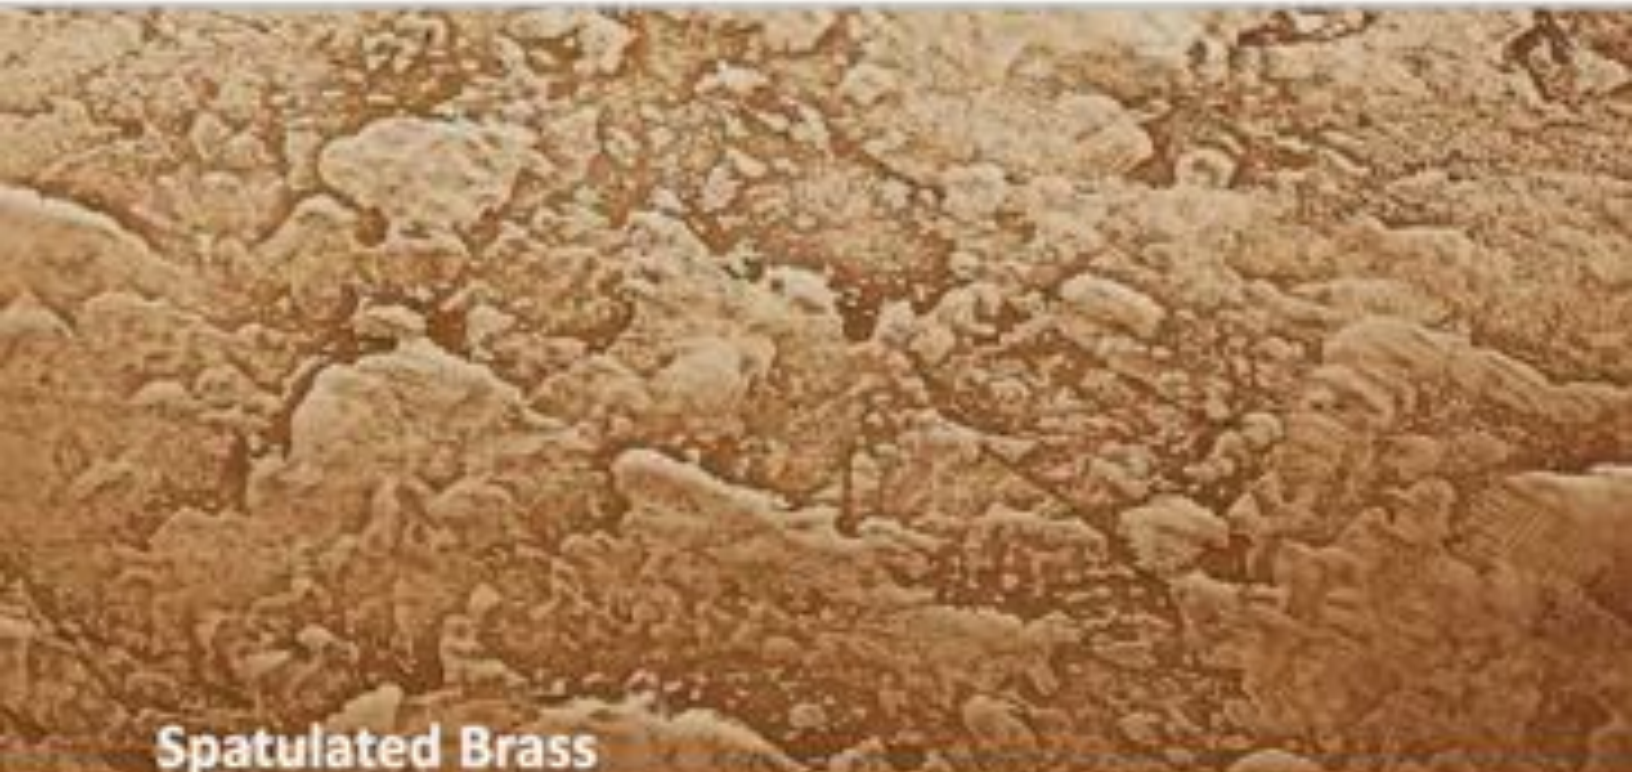

The **authenticity** of our creations is guaranteed by the **archive number**, which is uniquely assigned to both the **object** and its corresponding **paper certificate**.

## Metals and Masterpieces Collections

The **Metals Collection** blends the **brilliance of metals** with the texture of our **spatulated decorations**.

The **Masterpieces Collection** combines the luxury of **precious metals, 18K gold and 950 platinum**, with our **exclusive and customized creations**. Each piece, certified by a metal plaque, is an **exclusive work of art** designed for collectors and lovers of beauty.

Coffee Tables & Tables

Decorative Mirrors

## **Our Creations**

**Mirrors were the first objects created, because of their aesthetic, historical, and artistic value. If you think about it, in a certain sense, a mirror is the object closest to a painting or a work of art.**

**Coffee tables and consoles were a natural consequence: they allowed us to place another object at the bottom of our mirror.**

**Tables are in high demand, due to the possibility of customizing their size and shape, which is a frequent request, but today still a solution not widespread among other manufacturers.**

**Last but not least, the Lamps:  
the objects we are most fond of.  
We consider our lamps pure emotion!**

**We always strive to create bright objects producing a strong emotion even before fulfilling their lighting function.**

Year: 2022

**Unique  
certified  
creations,  
100% Italian  
manufacturing.**

The LAMA dining table, rectangular in shape, features a lightweight design, perfect for modern living spaces.

# LIGHTING EMOTIONS

The background of the entire image is a close-up of a wooden surface, showing concentric growth rings in shades of warm brown and gold. In the center of the image, there is a circular opening, possibly a hole in a lampshade. Inside this opening, two solid black circles are positioned, one slightly overlapping the other, creating a minimalist, abstract composition.

Our lamps transform lighting  
into pure artistic expressions.

Every creation tells a story of passion,  
innovation, and experimentation.

Allow us to inspire you!

**Our products are exclusively designed and manufactured in Italy, using only the finest materials.**

**Craftsmanship and special materials allow us to create customized and exclusive limited edition pieces. Each unique creation is certified with an archive number.**
