Novelties 2025

“We are a *lighting factory*, and we have been manufacturers of lighting since 1987, and we love doing so. We design unique products that become unrepeatable because we produce them in-house with our own hands and craftsmanship”

| LIGHT ACTUALLY |

\ ITA Il 2025 segna l’inizio di un nuovo percorso evolutivo per iDL, alla ricerca di un linguaggio proprio e identitario in grado di coniugare la sua storia nell’illuminazione decorativa con i linguaggi del design contemporaneo. *LIGHT ACTUALLY*, il claim coniato per questa nuova fase progettuale, ha il chiaro intento di rimarcare il fil rouge tra passato e futuro: una luce vera, reale, standard o cucita su misura sui sogni di chi la vivrà. Sotto questa dichiarazione di intenti, iDL presenta sei nuove collezioni, di cui tre progettate dal designer e nuovo direttore artistico del brand Alessandro Masturzo e tre dall’ufficio stile iDL. \

ENG 2025 marks the beginning of a new evolutionary path for iDL, in search of its own identity and language capable of merging its history in decorative lighting with the languages of contemporary design. *LIGHT ACTUALLY*, the claim coined for this new design era, clearly aims to emphasize the thread that connects the past and the future: a true, real, standard or tailor-made light based on the dreams of those who will experience it. Under this declaration of intent, it presents six new collections, three of which designed by the designer and new Art director of the brand Alessandro Masturzo and three by the IDL style office.
