

LINTELOO

‘IT’S ALL ABOUT COMFORT
AND THE JOY OF LIFE’

*‘I wanted to create a brand that radiates
‘enjoying the good life’ in every possible way.’*

LINTELOO STORY

LINTELOO

JAN TE LINTELO
FOUNDER OF LINTELOO

NIELS ROKS
MANAGING DIRECTOR

In 1994, Jan te Lintelo, later joined by his life partner Lars Nikolajsen, out of his passion for design and furniture began creating the LINTELOO collection, in which, right from the start comfort and luxury living were key. They let nothing stand in their way of building a collection, which expressed their way of living: no restrictions, but rather free and generous.

They wanted to give their customers the ultimate luxury life experience, by working with national and international top designers and the best manufacturers in the world, to create designs that stand the test of time and exemplify easy-going comfort.

Today, more than 30 years later, we at LINTELOO still work on expanding our brand and collection with love and joy, committed to put our passion for life at its heart. With Jan handing over of the helm of the day-to-day operations at LINTELOO to Niels Roks, we have added a new chapter to our company. Jan is now completely focussed on product development as well as, of course, being the most important ambassador for the brand.

Niels has a solid background and a history of success in the world of furniture and interior and product design. Combined with a natural curiosity about the way people live, his zest for life and enjoyment of life’s pleasures, this made Niels the perfect choice for Jan and Lars to follow in their footsteps.

Niels is passionate about the quality and heritage of the brand and is building on its strong tradition, expanding the LINTELOO collection with designs by both new and longstanding designers and taking the company to the next level. So, you can rest assured that we at LINTELOO will continue letting our customers enjoy the good life, for many years to come.

DESIGNERS

Over the years LINTELOO has produced a series of successful designs that are still very much in demand today. The collection as a whole doesn't radiate a single rigid style, but all items are related to one another, like a family.

Same goes for the designers we work with. They don't have the same signature, but they do all share the same philosophy. They work hard and think out of the box, while respecting traditional craftsmanship. And they all enjoy life as much as we do!

COLLECTION

LINTELOO

Every item in our collection is beautifully designed and crafted. Yet every item is there for you to be used, to be lived with, to be enjoyed. We embrace the concept of 'perfect imperfection', where traces of use add character, as a visible reminder of a life well lived. We love how no two pieces of leather are the same, how the veining of marble varies, creating singular and timeless pieces for an interior that is uniquely yours.

LINTELOO

SOFAS

Our approach to all sofas in the collection is that they must be as comfortable as they are beautiful. Their modular character, combined with the extensive fabric and leather options from our upholstery collection, enables you to create a bespoke sofa that is exactly tailored to your personal taste and (life)style.

EDOARDO ARMCHAIR
design by Jan te Lintelo

Celebrating 30 years of comfort and joy, Jan te Lintelo named his latest modular, customizable sofa after the man from whom, over the past three decades, he has received so much kindness and warmth. Sit down in the warm embrace of the sofa's plump cushions and 'Edoardo' gives you a big hug, like a dear friend.

PHOENIX LIGHT
design by Visser & Meijwaard

'Malibu' is inspired by the laid-back atmosphere of sun, sea, and beaches of this beach city close to down-town Los Angeles. It is precisely this combination of cool, relaxed and luxurious, that we see in this sofa: a comfortable body atop an elegant frame with subtle legs, that make the sofa look like it's floating on air.

LINTELOO

Voilà, enter 'George', with its airy feel—achieved by those thin and elegant legs—, its inviting, generous cushions, and its afternoon nap-ready high back.

ARMCHAIRS

LINTELOO

Armchair (noun), – a comfortable chair with two resting places for the arms -. Of course, at LINTELOO an armchair is never just that, but much more. We offer you a versatile collection of armchairs, all with their own distinctive character. Upholstered in the fabric or leather of your choice, it will be your perfect resting place, tailored to your exact taste.

CLAUDE ARMCHAIR
design by Guillaume Lopez

Lean against the trunk of an old weeping willow, and you sense that 'time' is all relative. The supple branches sway gently in the breeze and surround you, as if protecting you. This comforting feeling of 'everything is going to be alright' is what design duo Yabu Pushelberg offers you with their 'Willow' series—consisting of a modular sofa and armchair—, embracing you with its beautiful, wooden frame.

DINING TABLES & CHAIRS

LINTELOO

Your dining table, the hub of your home, is where you congregate with your family, where you have breakfast in the morning sun or spend long evenings with friends. Off course, you prefer doing all this sitting as comfortably as possible. With this in mind, we offer you a versatile collection of well-crafted dining chairs and benches, to make those dinner table moments even more enjoyable and memorable.

GENTLE ARMCHAIR
design by Sebastian Herkner

As Sebastian Herkner says: 'Design needs a human touch'. In his design 'Gentle'—an armchair and a dining chair—, this touch is truly tangible, because of the manufacturing process. By hand, craftsmen model clay moulds for each element, into which aluminium is subsequently die-cast. Place your hand on the armrest and you will feel the traces of their sculpting work.

ALTER DINING TABLE
design by Anthony Guerrée

LINTELOO

At first glance, the ALTER table is a 'simple' design. And then, suddenly, your eye is caught by those subtle details that lift this practical table up: the way the oak veneer criss-crosses the top, that playful indentation in the conical leg, the interesting overall shape that allows for multiple placements.

With 'Isola', Roderick Vos challenges the convention of having round, square or rectangular tables.

COFFEE & SIDE TABLES

LINTELOO

We feel a coffee- or side table and sometimes even a console table is one of life's must-haves: somewhere to put your coffee, your glass of wine, a book or a treasured piece of art. And since it is a must-have it had better be beautiful as well. Our coffee, side and console tables, come in all shapes, sizes and materials, to fit your individual needs and taste. What they have in common, is that each and ever one of them is well-designed and perfectly finished.

CHARLES COFFEE TABLES
design by Sebastian Herkner

LINTELOO

Inspired by Piet Mondriaan and Russian Constructivism, this low oak table is beautiful and striking and, in fact, extremely practical. 'Manhattan' embodies that well known phrase: a place for everything and everything in its place.

PELAGE RUG

LINTELOO

With 'Isola', Roderick Vos was inspired by the pattern that waves leave on sandy beaches. Hence, the table-tops of the coffee table feature an organic silhouette and delicately milled rings, making 'Isola', quite literally, an island of beauty in any space.

ISOLA COFFEE TABLE
design by Studio Roderick Vos

BEDS

LINTELOO

Like the 'Gilbert' sofa, this 'Gilbert' bed was inspired by the Tetris computer game: simple, geometric blocks that slot into each other, creating exciting shapes. The visible distinction between the various 'blocks', in this case the two headboards, is a powerful feature. So beautiful, that the bed lends itself as a freestanding element.

ACCESSORIES

LINTELOO

Never underestimate the power of accessories! Accessories will help you add a pop of colour or a little more texture and depth, bringing the various elements of your interior together. Whether they are pillows, throws, books or pieces of art, accessories give your room that personal touch and 'finished' feel.
